OUT OF CHAOS, ORDER COMES

- A Family Constellations Facilitator Retreat

30th Oct – 1st Nov 2026

Ōrongomai Marae, Upper Hutt, Aotearoa New Zealand

Working with Collective Strength & Resilience

In these times of increasing complexity and uncertainty, facilitators are being called to work in new ways.

This retreat will explore how we can draw on the broader collective field as a source of strength, regulation, and guidance both for ourselves and for those we work with.

Hosted by ANZCI - with Margarete Koenning

Together, we will deepen into:

- Working with collective resilience in the field
- Practices of co-regulation when there is instability or overwhelm
- Staying grounded and present while navigating chaotic or fast moving dynamics
- Trusting the movement from disorder toward coherence

Rather than trying to control or resolve what arises, we learn to stay with the process and allow something deeper to emerge
