3103 PERKIOMEN AVENUE - Mr. Antonio Hazel presented before Council representing the property at 3103 Perkiomen Avenue questioning a bill that was received by the Borough for a sewer call out to that property. There was a bill from the Borough for two hours of Mr. Rhoad's time. He was questioning why Mr. Rhoads needed to be on site if Captain Clog was there taking care of the problem. He was also questioning his invoice from Captain Clog for \$600; he felt that that was extreme. There was discussion about the Borough's responsibility when sewer is spewing out onto the grass and why Mr. Rhoads needed to be onsite. Mr. Lubenow asked if we have a fee schedule for billing out Borough time; Ms. Leinbach indicated that there is on the fee schedule. Ms. Leinbach indicated that everything that was done with coordinating and reporting that two hours of time was very reasonable. He also questioned why he was being billed and not the residents at 3105 and 3107; it was stated that those residents were billed as well but directly through Captain Clog and billed by the Borough for Mr. Rhoads's time as well. There was continued discussion however Council was not willing to forgive the invoices and felt that what was done was reasonable.

3367 OLEY TURNPIKE ROAD - Ms. Dori Russo appeared before Council representing her mother who she stated is a 50+ year resident of the Borough. Ms. Russo had a thumb drive that included pictures, e-mails, and a 2018 and 2019 log. Her complaint is about the neighbor who has a feral cat colony. She indicated that the thumb drive pictures will indicate the growing colony next door and that their main concern are the cats coming into her mother's property and the feces that are being left behind. She feels that this is a health issue for her mother and that this is something that should not have to be tolerated. In the end, Ms. Russo is asking that that Borough aid them in just looking for a way to contain the cats to the neighbor's property. The information that was provided will be distributed to the members of Council for review and further discussion about whether or not there is anything that the Borough can do to help these residents.

PUBLIC HEARINGS, PETITONS:

AMY & KYLE BRANT – 3424 STONER AVENUE - Mrs. Brant introduced herself and indicated that her and her husband and two children have lived in the Borough for approximately 20 years. They present this evening with concern over the feral cat population and what can be done about the problem. She indicated that they are concerned about the damage that has been done to their property, the smell, the anxiety that it has caused to their dog and the fact that it has lowered the property value. They present this evening to find out what can be done about this problem. Mr. May, Council President, indicated that this is not the first complaint that has been received; however, in doing the research that we have done, there really isn't anything illegal about residents feeding the feral cats. Mr. May also indicated that we do participate in a TNR program (Trap, Neuter, Release). All those cats that have neutered will have clipped ears and by doing this it prevents the colonies from reproducing. The Borough understands the issues but at this time there is little that can be done about the problem. There was discussion and Mrs. Brant asked whether or not there could be a ban on feeding feral cats. It was determined that that is not really a great option because of enforcement. Ms. London indicated that there is an ordinance in Lyons Borough that she could forward to Council to review which limits the number of feral cats. Ms. Leinbach also indicated that no animal shelter will take a feral cat and that it is returned to where it came from. If they are willing to provide the Borough with the name and address of the person that is harboring the feral cat colony the Borough can provide them with information about the TNR program which is free but this will not eliminate the feral cats just keep the colonies from growing. This has been in the newsletter in the past but we will include this information again in the upcoming newsletter. The Brant's thanked Council for their time.

The police contract will expire at the end of this calendar year and the Chief indicated that the new contract numbers will be based on the needs and the equipment needed to provide the service that we have been receiving in the past. Mayor Kinsey also talked briefly about the state's plans to fund the State Police and that all municipalities will

have to pay even if they provide their own police protection. We will have to see how this pans out through the house and senate but could definitely be something additional that we would have to budget for in the future if this becomes law.

PUBLIC HEARINGS, PETITIONS:

READING REAL ESTATE - Mr. Rob Hain, Berks Surveying and Mr. Jason Lutz, owner of Reading Real Estate, presented before Council this evening with the land development plan that was part of the zoning hearing variance that was granted. They have gone before Planning Commission on February 26, 2020 as well where the attached 17 page review letter from SDE was reviewed and provided to Council for their review as well. A letter from Berks Survey requesting waivers was also reviewed by the Planning Commission and included for Council's review as well. The three waivers that were requested involved sidewalks, shade trees and parking and loading area paving. The Planning Commission's recommendation was to grant the waivers for the shade trees and parking and loading area paving. The waiver on sidewalks was recommended for the purpose of the land development plan however not waived by right of Council to request installation of sidewalks at any time per Borough Code. Mr. Hain explained that they did not feel it necessary at this time because it would not be connected to any other sidewalks and would encourage people to walk in the street for which Council was not in agreement. Ms. London also asked whether or not there was a signed parking agreement in place with the Arbor Inn since the plan is short three parking spaces. Mr. Lutz indicated that this is being worked on by the attorneys at this time. The plan also has steep slope issues that would require a variance but the plan will be rectified and if the need to implement the extra parking that would be pursued at that time. Council discussed the sidewalks; there were strong feelings with regard to sidewalks and that all of the other businesses renovating properties without sidewalks were made to install sidewalks and were given ample time in which to get that done. **MOTION:** Rev. Bennethum made the motion granting the waiver of the shade trees and parking and loading area paving however sidewalks will need to be installed within three years and a parking agreement will need to be signed and filed with the Borough and will be reviewed on an annual basis; seconded by Mr. Geibel; Mr. Geibel, Mr. Fritz, Mr. Eggert and Rev. Bennethum were in favor; Mr. May opposed; the motion carried with a vote of 4-1.

MR. DUSTIN MANZ - Mr. Manz appeared before Council asking whether or not his conditional use hearing could be continued in April. Mr. Manz indicated that he has submitted everything that was asked of him at the last conditional use hearing including the stormwater plans. Mr. Leineweber indicated that he had met with Mr. Gary Kraft at the site and that they are proposing berms every so many feet. Mr. Manz stated that he was not aware that they needed to provide for full rate control but that he has now provided that information. Mr. Manz asked the Borough Council what they were looking for in order to move forward; there was a discussion about the plan stating possible location and the wording was a problem. Mr. May indicated that he could only speak for himself but that he would not vote favorably for a possible dwelling site. If the location were to change it could change everything with the stormwater plan. If the plan said proposed site that would be a start. Mr. Leineweber indicate that he has the plan but has not completed the review on it as of yet but should be able to complete his review by the April meeting. The continuance of the Conditional Use Hearing will be scheduled for April 9 at 7:00 PM.

STREETS & LIGHTS

INDUSTRIAL GROUND MAINTENANCE - The annual spring street sweeping is scheduled for April 30th and May 1st at a cost of \$2500 which is \$250 more than last year. PUBLIC WORKS REPORT

UGI – The UGI street opening permit fee of over \$100,000 was discussed. The explanation of how this can about was explained to Council.

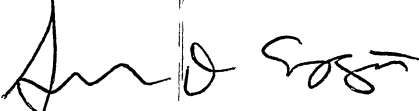

NEW BUSINESS

TRAFFIC SIGNAL AT OLEY TURNPIKE ROAD - We have had numerous complaints about the light at Oley Turnpike Road and Perkiomen Avenue. Mr. Eggert and Mr. May accompanied Mr. Hivner and Mr. Rhoads on a walkthrough with the new signals. Apparently, they watched that light at the intersection and if a car pulls where it is supposed to the light will be triggered with no problem. If a car is not stopped where it is supposed to be stopped the camera will not pick it up and therefore does not recognize a car at the light. This light is working properly.

Another option would be to use the playground or possibly inquire with Community Church about use of their social hall. The hearing will begin at 7:00 PM. No research will be done about where the hearing will take place before advertisement needs to be done. NEW STREET LIGHTS ON ELM AND TEAK - Mr. Zawilla asked when these lights were going to be energized since the lights are up for almost a year at this point. Ms. Leinbach indicated that the building code official, Mr. Golashovsky was in charge of submitting all of the paperwork to First Energy for this project and she will check with him as to the status of this project.

RECREATION

COMMUNITY GARDENS - The gardeners have not been contributing to water bills up until this point and since the price of water has increased significantly Ms. Leinbach was asking whether or not the Borough still wanted to provide water free of charge to the gardens. This was discussed and Ms. Leinbach was directed to have Mr. Sands put a meter in place and the gardeners will be billed for their water usage.

PLAYGROUND PROGRAM - At this time the playground will not open since we need to be at the green phase in order to hold the program. At this time the playground will remain closed.

Ms. Leinbach reported that there has been two commercial zoning permits filed; one for signage at the Rite Aid and the other for interior renovations at Exeter Supply. There have been 19 building permits for the first quarter and 13 for the second quarter. At this time there are permits in the midst of being processed.

REPORT OF THE BOROUGH MAYOR - BARRIE KINSEY

Mayor Kinsey's report is included in the minutes for review.

BUDGET & FINANCE - ALLISON LEINBACH

This is for taxes paid on the Administration Building. **MOTION:** Mr. Warren Lubenow made the motion authorizing the reimbursement of \$179.93 to the Exeter Township School District for taxes paid in 2020; seconded by Mr. Eggert; all were in favor and the motion carried.

STREETS & LIGHTS

BINGAMAN STREET – Mr. Rhoads gave Council an update on the Bingaman Street intersection. During the storm last week the controller cabinet was damaged beyond repair and all of the electronic components were fried. A high-tension line came down and basically fried the underground wires to the traffic signal. The total amount to repair will be around \$50,000 according to Telco. Mr. Rhoads also indicated that the battery backups for the traffic signals last approximately six hours. Mr. May indicated that during the walk through with Telco there is room in the controller box for additional battery backups. Council will get a proposal from Telco for the additional battery backups that way there is back up for approximately 12 hours. It was mentioned that Chief Serafin was very thankful for all of the work done by Mr. Rhoads during the storm event and sent an e-mail to Council praising the work done by Mr. Rhoads.

SPEED SENSORY SIGN - Ms. Leinbach mentioned that there is now a solar light on the speed sensory sign. Mr. Rhoads indicated that the battery usually needed to be changed every other day or every third day. Since installing the solar unit he has not needed to be changed in about three weeks.

SANITARY SEWER

It was noted that we have received our first bill from PA American for sewer since they have purchased the plant from Exeter Township. The bill was actually for six months of service and was under \$39,000. Ms. Leinbach and Mr. May were very happy with the that amount. It was also noted that in reviewing the report from DEP that it was noted that Exeter's system was hydraulically overloading which is another argument to support the Borough's claims.

RECREATION - DAVID EGGERT

PLAYGROUND PROGRAM - The summer playground program for 2020 has been cancelled as has many other municipalities including Exeter Township. It was discussed whether or not to open the playground for use. There was discussion and it was decided that the playground will remain closed until we hit the green phase. This will be further discussed at the July Council meeting.

MUNICIPAL LANDS – Mr. May indicated that he has a concern now that Mr. Manz was granted his conditional use to build a home. Since the home is adjacent to the Borough woodlands whether or not a fire hydrant should be installed further up into the woods in case of a fire. It was noted that there is a fire hydrant at the base of Ridge Street and that that should be sufficient in case of that type of emergency.

LIBRARY LIAISON - REV BENNETHUM

The library remains closed at this time. As we move into the next phase which is predicted to be end of June that they will be offering curbside pickup.

NEW BUSINESS

POLICY FOR PROFESSIONAL STAFF - Mr. May indicated that the Borough should implement a policy for contacting professional staff directly. It was noted that the first contact should be Ms. Leinbach and if questions cannot be answered she will go to the professionals for answers and inform everyone with the information.

ADDRESSES FOR SERVICE ALLEYS - It was noted that during trash and yard waste pickups that when problems arise there is no way of knowing what the address of the property in question is because they are not marked. When providing services in those alleys the Borough office felt that the address should be clearly marked. This can also be a potential problem with providing emergency services. Ms. Leinbach indicated that this can be done through property maintenance and Ms. London will draft an ordinance for the July meeting.

STREAMING MEETINGS - It was noted that if we are going to continue steaming meetings we will need to purchase some better equipment. **MOTION:** Mr. Eggert made the motion authorizing the Borough Manger to spend up to \$2000 for purchasing advanced equipment to stream meetings; seconded by Mr. Lubenow; all were in favor and the motion carried.

PUBLIC HEARINGS

JILL KEMP – Resident at 3945 Lynn Avenue e-mailed with three questions/concerns.

1. Concern about the speeding on Lynn Avenue and was wondering whether or not speed bumps could be placed to slow people down. It was noted that speed bumps are not allowed on public roadways and would definitely create problems with plowing in the wintertime. It was noted that we own some electronic speed signs and Mr. Rhoads indicated that it could be placed on Lynn Avenue instead of Parkview Road for a time and a street light pole can be used to mount the sign. The data can be downloaded and we can try to pinpoint the average speed and inform the police about the most concentrated time of the speeders so that enforcement can be setup.
2. Ms. Kemp also noted a concern about the lantern flies that are infesting on the stadium property. Ms. London and Ms. Leinbach will work on a courtesy letter to the Diocese asking for their cooperation in removing the ailanthus.
3. Curfews – Her question was, does the Borough have a curfew and the answer is yes. There is an 11:00 PM curfew; if there are any issues this can be reported to the police via the non-emergency number at 610-655-4911.

JOHN PARKER - Mr. Parker resides at 3943 Lynn Avenue. He e-mailed in with concerns about speeding on Lynn Avenue. Again, it was noted that the Borough will be placing the electronic speed sign in this area to get recordings of speeds and correlate with the police for enforcement.

REPORT OF THE BOROUGH ENGINEER - TY LEINNEWEBER, SDE

MANZ PROPERTY - There has been a timber harvesting plan submitted for the Manz Property. The plans show the entire property available for harvesting which would violate their ESO Plan. This is in the early stages and was only submitted over the past few days and has not yet been reviewed by the engineer. According to Mr. Leinneweber the conditional use that was given would not allow the degree of timbering that is shown on the plan. This plan will be reviewed in detail and a letter will be sent to Mr. Manz.

REPORT OF THE BOROUGH SOLICITOR - JOAN LONDON, KOZLOFF STOUT

A draft ordinance was provided for review by Council which would force property owners who receive services in alleys or the rear of their properties to properly address the rear of their homes. This ordinance is not ready for advertisement as Ms. Leinbach is recommending some changes to it and the Building Code Official would like to have some input concerning property maintenance. This will be discussed further at the September meeting.

REPORT OF THE CODE ENFORCEMENT OFFICER - ALLISON LEINBACH

Ms. Leinbach indicated that we are in the midst of some code enforcement matters mainly concerning work being done without a permit. There is a plan submission for signage for the Rite Aid and we are trying to work with them on what is being done.

REPORT OF THE BOROUGH MAYOR - BARRIE KINSEY

The police report was available for review.

BUDGET & FINANCE - ALLISON LEINBACH

RESOLUTION 833-2020 - Resolution 833 is a revised fee schedule. The new fee schedule would add fees for pre-lien collection notice because of the extent of work that comes into play when placing a lien. The fee would be for \$25 which would be added to the charge that is being billed. Another addition to the fee schedule is a timber forestry fee of \$250 will be added as an application fee to include plan review and inspection fees. Once this is done Met Ed said that it would take four weeks to power the lights.

SANITARY SEWER - ALLISON LEINBACH

SEWER USE ORDINANCE - Since Exeter no longer owns the sewer plant Ms. Leinbach is working with PA American to create a new ordinance. Ms. London indicated that she will get copies of sewer use ordinances so that language can be incorporated into the ordinance.

SEWER BILL PENALITIES - Ms. Leinbach indicated that the board of Mt. Penn Municipal Authority voted to waive penalty fees therefore penalties were not added on the sewer portion of the bill. Ms. Leinbach informed them that that was not their decision to make that Council would need to make that decision. Apparently, they have noted that the people who were paying are paying and those that don't pay are not paying anyway despite no penalties. There was discussion and Council decided to not waive the penalties.

SEWER REFUNDS - In reviewing documents from Mt. Penn Water Ms. Leinbach indicated that she discovered that a few customers were being double billed. Dr. Petras who discharges to AVMA was being double billed for five billing cycles and is owed \$327.40 with \$181.20 going to AVMA. It was also discovered that St. Lawrence Properties which is the old Dolan Office Building has been double billed since September 2018 and is owed \$946.75. The total amount of refunds due is \$1,455.35. **MOTION:** Mr. Gregory Zawilla made the motion authorizing the Borough to make the three refunds as noted above; seconded by Rev. Bennethum; all were in favor and the motion carried.

SANITARY SEWER OVERFLOW - During the latest storm event the Borough experience an SSO. This was reported to DEP and the documents are included in the minutes for review.

SEWER BILL FROM PA AMERICAN - It appears that PA American is getting the raw data numbers to do the billing to the Borough. Ms. Leinbach is working on resolving this matter because even the AVMA customers were included in the information. Of note, there was a 1.5 million gallon leak at Community Park and Exeter Township received a sewer bill for \$13,000.

RECREATION

HALLOWEEN CURFEW AND TRICK OR TREAT - Ms. Leinbach indicated that the Borough needs to decide if they are going to implement a Halloween Curfew and whether or not they want to cancel trick or treat this year. There was a discussion and Council decided that a two-week Halloween curfew should be enacted and that residents can decide whether or not they wanted to take their children trick or treating. Residents can decide whether or not to participating by either not answering their door and leaving their lights off.

ST. LAWRENCE BOROUGH COUNCIL

The library has provided curbside pickup and that was very well received. They are waiting to hear from the state to find out when they can safely reopen their doors to the public.

UNFINISHED BUSINESS

COMMUNITY PARK - Mr. Lubenow indicated that he received a call from school board member, David Hemberger, to discuss Community Park. Mr. Hemberger presented Mr. Lubenow with two options; one being whether or not the Borough would like to take over Exeter Township's lease or secondly would the Borough be interested in purchasing the property. Mr. Lubenow indicated that he told Mr. Hemberger that he could not speak for Council but that he highly doubted that the Borough would be interested in either of those options. On the same day Ms. Leinbach received a call from Exeter Township inviting her to attend a zoom meeting with the school board members, superintendent, Exeter Supervisors and Ms. Leinbach. Ms. Leinbach asked her whether or not anything has changed since last August when she attended a meeting with the same individuals to which the answer was no. There was some discussion and Council decided to have Ms. Leinbach go back to the school district and Exeter Township to let them know that the Borough has no interest in participating in discussion about Community Park, no interest in taking over the lease and no interest in purchasing the property.

OVERGROWN AILANTUS - Mr. Lubenow asked Mr. Rhoads whether or not he was able to talk to Met Ed or the water company about the overgrown ailanthus on their properties. Mr. Rhoads indicated that he spoke with Met Ed and they are planning on decommissioning the overhead lines and will be eliminating them at that time. Mt. Penn Water indicated that they will take care of removing the ailanthus from their property as well.

NEW BUSINESS

RESOLUTION 832-2020 – Resolution 832 would allow for destruction of municipal records. The list of records to be destroyed was reviewed by Ms. London and approved. **MOTION:** Mr. Lubenow made the motion to adopt Resolution 832-2020; seconded by Rev. Bennethum; all were in favor and the motion carried.

GENERAL COMMENTS TO COUNCIL

FIREWORKS - Mr. Lubenow indicated that he received a call from Dr. Ronald Ivison, former Mayor and Councilman, with regard to fireworks. We know that this has been a problem. Mr. Lubenow asked whether or not we could entertain an ordinance to ban them; Ms. Leinbach indicated that it is a state law and that the only problem with enacting an ordinance is how to enforce it. Ms. London is going to look into whether or not the Borough ordinance could supersede the state law.

ADJOURNMENT: MOTION: Mr. Lubenow made the motion to adjourn; seconded by Mr. Zawilla; all were in favor and the motion carried. The meeting of the St. Lawrence Borough Council adjourned at 8:43 PM.

Respectfully submitted,

REPORT OF THE BOROUGH ENGINEER - TY LEINNEWEBER, SDE

TIMBER HARVESTING PLAN – Mr. Leinneweber indicated that he did review the timber harvesting plan submitted by Mr. Manz. The zoning permit application which is required was forwarded to Mr. Manz however nothing has been received to date. The main concern with the plan that was received is what kind of runoff is going to occur with the timber harvesting. Apparently, the Conservation District does not review plans and will only step in if a problem occurs as a result of the timber harvesting. The other concern is the E&S plan that was submitted for the home will still be valid as that is the plan that the conditional use was based on for the building of the home.

ANIMAL CONTROL - Ms. Leinbach indicated that Safety Net Sanctuary has reached out to the Borough about renewing the contract for new year. For 2020 the Borough paid \$1,000 for services; they would like to increase the contract fee to \$2,000. The only information that was provided was they took six animals in for the Borough. She indicated that her costs for vetting have increased but no other information was provided. It was noted the services that they can provide are limited and the contract is pretty open ended so we are not guaranteed of any other fees that could be charged to the Borough. Ms. Leinbach has provided information for Council to review for the Animal Rescue League. The 2021 contract is not available but for full service the Borough could go with the \$2 per capita fee. That cost would be based on the last census of 1809 residents; the cost would be \$3,618 for full service. There was a short discussion. **MOTION:** Mr. Zawilla made the motion to terminate the contract with Safety Net Sanctuary and send them their 90 day notice indicating that the Borough will not be renewing the contract for 2021 and once the contract for 2021 is available for the Animal Rescue League to enter into agreement with them for the \$2.00 per capita fee for full animal services; seconded by Mr. Lubenow; all were in favor and the motion carried.

APPOINTMENT OF CONFLICTS COUNSEL – The Borough needs to appoint a conflicts counsel to handle matters when Ms. London’s firm has a conflict with clients. Ms. Leinbach indicated that the Borough used the Zoning Hearing Board attorney for the conditional use hearing for Mr. Manz however if zoning issues come up and he needs to go before the zoning hearing board that would be a problem. Ms. Leinbach searched has found that Mr. Keith Mooney who is a solicitor with Barley Snyder is willing to be our conflicts counsel. The fee schedule is attached; this would be done as Resolution 836-2020.

MOTION: Mr. Eggert made the motion to adopt Resolution 836-2020 appointing the law firm of Barley Snyder as conflicts counsel for the Borough of St. Lawrence; seconded by Rev. Bennethum; all were in favor and the motion carried.

STREETS & LIGHTS

SPEED STUDY DONE ON LYNN AVENUE - Mr. Rhoads did install the speed sensory sign to record speeds on Lynn Avenue and the reports were available in the packets for review. The first report showed speeds with the sign lighting up and the second report showed the speeds on spy mode. The average speed on Lynn Avenue was 22 MPH. These reports do not show excessive speeding.

ELM STREET/TEAK STREET LIGHTS - All of the paperwork has been submitted and Mr. Golashovsky has added all of the fixtures that were requested. The invoice for the connection has been paid and MetED has indicated that the lights will be activated and connected within four to six weeks.

The curfew is the same; Oct 17th through Nov 1st from 9:00 PM until 6:00 AM unless accompanied by a parent or guardian or coming from work. The discussion in August was whether or not to have two nights of trick or treat as before or go with one night. There was a short discussion and Council decided to make it two nights as usual since people like to stay home one evening and go out another evening. This will be done as Resolution 834-2020 with the curfew starting on Saturday, Oct 17th and ending on November 1st from 9:00 PM until 6:00 AM and setting Oct 30th and Oct 31st from 5:00 PM until 9:00 PM for Trick or Treat. **MOTION:** Mr. Eggert made the motion adopting Resolution 834-2020 setting the Halloween Curfew and Trick or Treat nights; seconded by Mr. Fritz; all were in favor and the motion carried.

UNFINISHED BUSINESS

FIREWORKS - Mr. Lubenow asked Ms. London if she had found anything out about state regulation and municipal regulations with regards to fireworks and whether or not fines can be done. There was a discussion; enforcement is the issue and it was determined that if we can get the addresses of the properties where this is occurring a letter can be sent to the resident. This action seemed to be effective last year when this was done for another property.

NEW BUSINESS

RESOLUTION 837-2020 - Resolution 837-2020 is authorizing destruction of municipal records. The attached list was e-mailed to Council for their review to determine if there was anything that they wished to keep on record; there was none. **MOTION:** Mr. Eggert made the motion to adopt Resolution 837-2020 destruction of municipal records; seconded by Mr. Lubenow; all were in favor and the motion carried.

FIRE TAX – There are still a few unpaid fire tax invoices from the calendar year 2019. Ms. Leinbach indicated that a last final notice letter was sent. The next step is a pre-lien letter noting that a lien is going to be placed in 30 days if not paid, first class mail letter stating that in 10 days a lien will be placed and all fees will be added to the invoice. **MOTION:** Mr. Eggert made the motion authoring the certified letters, first class mail letters, and lien being placed on all unpaid 2019 fire tax properties with all fees attached to the lien.

INCOMING AND OUTGOING COMMUNICATION

WOMEN'S CLUB - Mr. Fritz indicated that the Women's Club President, Cheryll Oestrich, reached out to him about the ability to sell food at the upcoming election. Ms. Leinbach did not feel that this was a good idea since the election is going to be busy and parking is limited as well as trying to limit the number of people in and out of the building with COVID 19. There was a discussion and Council determined that they would allow the Women's Club to hold their food fundraiser with the following restrictions; (1) All food prep must be done the night before and removed from the building prior to the opening of the polls; (2) a small tent can be set up outside in the grassy area next to where the Borough Truck is usually parked; (3) No member of the Women's Club or nonresident coming to pick up orders and not coming in to vote may park in the parking lot; (4) no gathering of people coming to pick up, must try to move crowds along; and (5) must follow all CDC guidelines as far as hand sanitizer and masks. **MOTION:** Mr. Eggert made the motion authorizing Mrs. Eggert to send a letter to the Women's Club with the restrictions set by Council for the election day food sale; seconded by Mr. Lubenow; Mr. Zawilla, Mr. Eggert, Rev. Bennethum, Mr. Fritz, and Mr. Geibel voting in favor; Mr. May abstained since he does not come to vote in person.

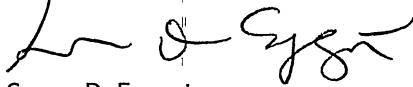

GENERAL COMMENTS TO COUNCIL

REAR ADDRESSING – Mr. Geibel asked about the status of the rear addressing ordinance. Ms. Leinbach said that we are still working on the size of the addressing because depending on how far the property is from the service alley it will not be seen so as soon as that is determined this will be ready for advertisement and adoption.

PUBLIC HEARINGS, PETITIONS

LOWER ALSACE AMBULANCE – Mr. Matt Stairiker from Lower Alsace Ambulance presented this evening to introduce their new Director of Operations, Mr. Phil Salamone. Mr. Salamone has been with Lower Alsace Ambulance since 2015; he spent 15 years with Kutztown Ambulance prior to coming to Lower Alsace. Mr. Salamone has been very successful in helping Lower Alsace Ambulance get a better handle on their finances and has been able to cut expenses. A second quarter report was sent to the Borough for review and a third quarter report should be available in the near future. Mr. Stairiker indicated the call volume is down slightly due to the COVID crisis since ambulatory procedures were halted and no elective surgeries were being done therefore no complications. The calls that were received were more cardiac arrest and life-threatening matters. Call volume is beginning to pick up slightly and the Borough is currently at 137 calls to date; 2019 total calls were 161 which is about 28% of the calls. Mr. Stairiker indicated that they are currently refurbishing an ambulance which will cost approximately \$105,000.00. They have secured decent financing but they are looking for contributions to the down money needed for this project. They cover four different municipalities and since Lower Alsace Township has given them and financed the last ambulance they are going to the other municipalities asking if they could contribute \$10,000.00 for this project; Mt. Penn, St. Lawrence and Alsace as well as themselves to provide the down deposit. They are looking to do this project in March of 2021. This will be discussed further during the budget process.

CENTRAL BERKS REGIONAL POLICE - Chief Serafin presented this evening because the police contract expires at the end of the year. A cost proposal was submitted to the Borough which proposes a 5% increase in 2021; 4 % increase in 2022 and 2023, 3.5% increase in 2024 and a 3% increase in 2025. Council was in agreement to the cost proposal that was received. **MOTION:** Rev. Bennethum made a motion to accept the cost proposal by Central Berks Regional Police pending review by the Police Commission and the Borough Solicitor; seconded by Mr. Eggert; all were in favor and the motion carried.

DUSTIN & SAMANTHA MANZ - Mr. Manz presented this evening with a few complaints. His main concern is that there is a conflict with the zoning officer. Mr. Manz indicated that he feels that Ms. Leinbach has a conflict being related to one of the residents that showed up at the conditional use hearing and would like to have someone outside of the Borough review his zoning documents. It was noted that Ty Leinneweber of SDE is an assistant zoning officer. Mr. Manz indicated that he feels that the Borough and Ms. Leinbach dragged their feet with his process during the conditional use hearing. He stated that firstly it took him months to get a conditional use application when the Borough had one because it was used in 2016 and that there are no documents related to that hearing available through is right to know request. Ms. London explained that she remembers that hearing well and there are no documents because a transcript was not transcribed because there were no conflicts or concerns and conditions were given without needing to have that document. If Mr. Manz wants a transcript he can order one from the stenography company. Secondly, he had an offer on the land in 2019 and it took until July 2020 to actually get a conditional use on that property. He indicates that in spite of the COVID crisis he felt that that was unacceptable. Thirdly, he argued that the Borough had no sewer enforcement officer which is completely unacceptable and irresponsible on the Borough's end. Mr. May noted that the Borough appointed SSM in January 2020 and was never notified by SSM that they no

longer employed that person and as soon as the Borough was notified SDE was appointed however Mr. Manz feels that that incident held up his project. Fourthly, he sent a right to know request for paid receipts for advertisements of meeting notices was asked for a 30-day extension and how could that not possibly be easily accessible. Fifthly, he had Forester Report which was not presented during conditional use hearings because it is a separate matter and is a use by right and then all of sudden an ordinance was done to add timber harvesting fees and felt that that was done to target him. Ms. Leinbach indicated that he has not been billed or does the Borough have any intention of billing him those fees they were put in place for any further applications that may be received. Mr. Manz went on to say that Mr. Tom Biel had a timber harvest done in 2013 and no plans were submitted and no questions were asked and he was allowed to do his with no issue from the Borough. Mr. May indicated that he has a flat parcel and no steep slopes and owns the property where runoff would occur due to the timber harvesting if that problem would happen. The Borough was a recipient of issues when they did their own timber harvest in steep slope areas and that that is another reason for the concerns. In the end, Council had no issue removing Ms. Leinbach as the Zoning Officer and that Assistant Zoning Officer, Mr. Leinneweber will review all of his applications from here on out. **MOTION:** Mr. Eggert made the motion appointing Mr. Leinneweber of SDE the assistant zoning officer to review all of Mr. Manz's zoning applications; seconded by Mr. Gregory Zawilla; Mr. Eggert, Mr. Zawilla, Mr. Lubenow, Mr. Geibel and Rev. Bennethum voting in favor; Mr. May opposed; the motion carried.

REPORT OF THE BOROUGH ENGINEER - TY LEINNEWEBER

MANZ PROPERTY - Mr. Leinneweber indicated that we discussed this matter during public comment however Mr. May indicated that the Conservation District does not review any logging or timber plans unless it causes a discharge at which time they come out and review and assess what needs to be done.

Ms. London indicated that she and her associate litigators have started to review the documents related to the Exeter Sewer matter.

This will be advertised for all that would want to attend. **MOTION:** Mr. Eggert made the motion authorizing the budget meeting to be advertised for Fri. FOREIGN FIRE INSURANCE MONIES - The foreign fire insurance monies will be split 50/50 with Exeter Township Fire and Mt. Penn Fire; \$4,608.33 for Exeter and \$4,608.34 for Mt. Penn. **MOTION:** Mr. Eggert made the motion to split the foreign fire monies 50/50 between Exeter Fire and Mt. Penn Fire; seconded by Mr. Lubenow; all were in favor and the motion carried.

STREETS & LIGHTS

Ms. Leinbach told Council that the invoice for the energizing of the new street lights was paid however MetEd processed it as a credit to the account. Our representative was contacted and she has fixed the problem however this will delay the activation of the lights. The timeframe for the energizing of the lights is six to eight weeks so hopefully the lights will be energized shortly after Halloween since the error will cause a small delay.

PLANNING COMMISSION

The Planning Commission will be reviewing and redoing the SALDO and the Zoning Ordinance in 2021.

EMERGENCY MANAGEMENT COORDINATOR - DAVID EGGERT

Mr. Eggert indicated that he attended the training session last week. The session was on dealing with people with disabilities which was very enlightening.

The intention is to pay for the truck with liquid fuels monies. At this time Mr. Rhoads indicated that our roads are in pretty good condition since we are doing crack sealing and feels that if any work needs to be done could be done with micro surfacing for much less than asphalt. **MOTION:** Mr. Eggert made the motion authorizing the purchasing of a Ford F350 truck outfitted for snow plowing at a price of \$40,000 to be paid out of liquid fuels; seconded by Mr. Lubenow; all were in favor and the motion carried.
