Mystery of the Shemitah Unlocked by Jonothan Cahn

Is it possible that there exists an ancient mystery that lies behind modern times? That determines the rise and fall of the stock market and economy? The rise and collapse of nations? The destruction of empires and superpowers? A mystery more than 3,000 years old. And yet it determines global cataclysm, timing of world wars, the atomic age, the Cold War, the attack of 9/11 and more.

Could a mystery reveal in a little eastern mountain or in the rise of America; and what may be its coming fall. Could this ancient mystery, given to ancient shepherds be so precise that it has ordained the timing and collapses of Wall Street. A mystery, down to a year and month? The date and the hours. What if we could know the future? Could there exist a mystery going back to ancient times that's been affecting, even molding our lives from the days we were born, from events of global proportion to the state of our bank accounts, our past, our present, and our future: and what does it foretell concerning what is yet to come? What is this mystery? It's called the mystery of the Shemitah!

It began in the Harbinger, which is the revealing of a phenomenon that first appeared in ancient times. In the last days of Israel, it took the sign of 9 prophetic signs. Warnings, that foretold of coming destruction. These same 9 harbingers are now reappearing on American soil. In the same precise detail, warning of a coming national calamity. In addition to the 9 prophetic warnings, the harbinger contains a set of mysteries. One of these mysteries and chapters is called the mystery of the Shemitah. That chapter caused a frenzy of attention and speculation concerning the future. As Cahn delved further into the information, its mystery got even deeper. Ever more expansive and stunning. It touched virtually everything from Wall Street to world wars, to events of the 21st century. The new revelations resulted in the book 'The Mystery of the Shemitah'. What is the mystery of the Shemitah? And what does it have to do with you life? To find the origins we must go back over 3,000 years to a middle eastern desert on Mount Sinai.

The nation of Israel has just come out of Egypt. And its leader, Moses, has ascended the mountain to receive the revelation of the Torah or the Law of God. In this revelation comes the Law of the Shemitah.

Leviticus 25:1-6 And the Lord spoke to Moses on Mount Sinai, saying, "speak to the children of Israel, and say to them: When you come into the land which I give you, then the land shall keep a sabbath to the Lord. Six years you shall sow your field and six years you shall prune your vineyard, and gather its fruit; but in the seventh year there shall be a sabbath of solemn rest for the land, a sabbath to the Lord. You shall neither sow your field nor prune your vineyard. What grows of its own accord you shall not harvest nor gather the grapes of your untended vine for it is a year of rest for the land".

As every seventh day was a sabbath day, a day of rest, a day to be kept above the rest as Holy to God, so every 7th year was a sabbath year. **A year of rest, a year to be kept above the other years; HOLY TO THE LORD!** *The 7th or sabbath year was called Shemitah.*

During the year of the Shemitah the land would rest. There would be no sowing, no reaping, no plowing, no pruning of the vines or gathering the olives, no winnowing, no threshing, nothing. It was the sabbath for the land. Further, during the Shemitah there was to be no buying or selling or marketing of the fruits of the land. So the Shemitah had a massive effect on the nations economy. It was a year of economic cessation. It was to be a year in which the nation would turn away from worldly pursuits and turn to God. A year to declare the Lords sovereignty over their lives and their lands.

The Shemitah was to remind the people that the land belonged not to them, but to the Lord. And all the blessings of the land, the blessing of their lives, their well being, their sustenance, came from God. And without Him, those blessings would cease. But the Shemitah touched more than just the land. On the last day of the seventh year, something unique took place. The ordinance came from the end of Moses revelation on Mount Sinai.

It's found in **Deuteronomy 15:1-2**

1 At the end of every seven years thou shalt make a release.

2 And this is the manner of the release: Every creditor that lendeth ought unto his neighbour shall release it; he shall not exact it of his neighbour, or of his brother, because it is called the LORD's release.

The end of the 7 years was taken to be the last day of the Hebrew month - the 29th day of the month of ELUL or ELUL 29. On ELUL 29, all the nations debt was wiped away; all credit was wiped away. Everyone who owed a debt was released from that debt. Everyone who was owed a debt had to release that which was owed. So once every 7 years on that day, ELUL 29, at sunset the nations financial slate was wiped clean. All financial accounting of debt was nullified. ELUL 29 was the day of nullification or remission. The word remission or release was the Hebrew word Shemitah. So ELUL 29 was the day of remission and the 7th year was the year of remission. In the Shemitah both the land and the debts were released. So the Shemitah transformed the nation's financial and economic realm.

Now even though the Shemitah was meant to be a blessing to Israel, it possessed another side. As Israel turned away from God and broke His law, and defied His ways, the Shemitah was transformed from a sign of blessing into a sign of judgment.

In the year 586 BC, in the days of the prophet Jeremiah, the Shemitah came upon Israel in the form of judgment. The armies of Babylon overran the land. The city of Jerusalem was set on fire and raised to the ground. The land was left desolate, and its people were taken captive into exile to Babylon. Jeremiah was given a prophet revelation that the judgment would last 70 years. Why 70 years? Because of the Shemitah, the covenant decreed that when judgment would come to Israel the people would be removed from the land. And the land itself would rest. It would then observe its sabbath, its years of Shemitah. In other words the timing and the duration of the removal would be determined by the Shemitah. So now the land rested. There was no sowing or reaping or plowing or selling of its fruits. The nation had broken 70 Shemitah years and for 70 years the judgment would last. So the Shemitah turns from a sign of blessing to a sign of judgment against a nation that has turned away from God. Defied His ways, the sign of judgment that strikes the nations sustenance. It's blessings, its prosperity, its economic and financial realms. So whether in blessing or judgment the Shemitah impacts and transforms the realms of economics, production, trade, labor, consumption, finance, credit and debt. In judgment the Shemitah could even determine a nations existence or the lack of it.

THE MYSTERY OF CATAclysms

Is it possible that the mystery of the Shemitah could still be in effect? Even in the modern world, even today? Is it possible that God could use its pattern to determine the course of human history? To speak through it. To show the marks of His hand.

Could the ancient mystery that was on Mount Sinai still be affecting world history and our lives?

And could it be that at certain times, as in the Bible, that the Shemitah has manifested in the modern world as a sign of judgment?

If the phenomenon of the Shemitah were to reappear in modern times, how would it manifest?

The Shemitah causes economic cessation and financial nullification. In the modern world when the nations economic realm experiences cessation, or diminishing, its called a recession or a depression. And when a nation experiences financial nullified, the wiping out of financial accounts; is called a financial collapse or a crashing of stock markets.

Could the ancient mystery be affecting these realms to this day?

In the last 40 years there have been 5 major turning points in the financial realm. When the stock market reaches its long term peak and begins its collapse:

1973
1980
1987
2000
2007

Is there anything peculiar or strange about these years? The Shemitah affects the financial realm and takes place on a 7-year cycle.

The first and second turning point:

1973 and 1980 - that's a 7-year cycle.

1980 and 1987 - another 7-year cycle.

2000 and 2007 - the 3rd year turning point.

The Shemitah makes a 7-year financial change to take effect according to a 7- year cycle or mystery.

In the past 40 years every single major financial turning point has taken place according to a 7-year cycle from the preceding financial collapse.

Beyond these major 5 collapses, do any of the major collapses have any connection to the year of the Shemitah? The answer is yes. How many of them? Every single one of them.

1973 - was the year of Shemitah

1980 - Was the year of Shemitah

1987 - was the year of Shemitah

2000 - was the year of Shemitah

2007 - was the year of Shemitah

100% of the crashes take place, not only according to a seven year cycle, but also according to the specific seven year cycle ordained in the Bible as the Shemitah year.

Though the phenomenon may increase or lessen or may not be apparent in a given, what about the Shemitah of 1994? Was there anything significant that took place that year Regarding the financial realm?

The answer is yes. During the Shemitah of 1994, the other side of the financial market collapses. The great bond market massacre of 1994; and the greatest bond market collapse up to that moment. That collapse wiped away 600 billion dollars in U.S. Bonds, and a total of 1.5 trillion dollars world wide.

Now what happens if we expand the search and look for the greatest long-term collapses in modern history. From the turn of the 20st century to the 21st century.

Do any of the greatest crashes take place at the Biblical time of Shemitah? The answer again, is yes!

How many? The majority of them! Only a minority happen outside the Biblical Shemitah.

Of the top 3 greatest collapses of modern history, how many take place during the Shemitah? 100% of them:

The 3rd greatest crash is 1937-1938 is the year of the Biblical Shemitah.

The second greatest crash in history was the Great Recession. The global financial collapse. It begins in the year 2007 and see's its biggest financial crash in the year 2008.

2007-2008 is the Biblical year of the Shemitah.

The greatest crash in history is the Great Depression. It's critical and peak period is 1930 to1931. 1930-1931 is the year of the biblical Shemitah. In September, 1931, the Shemitah begins. The very next day, wallstreet collapses. In September, 1931, the Shemitah reaches its peak day. What follows is the greatest % of stock market crash in history!

Cahn reveals the link of this to the Hebrew month of Tishri. Tishri is the most sacred of Hebrew months, and it holds a unique connection to the Shemitah. The month of Tishri ushers in the Shemitah and crowns its conclusion. The Shemitah begins and ends with the month of Tishri. The Shemitah reaches its peace at the sunset of ALUL 29, the moment of financial nullification. Financial accounts are wiped away. That same moment and sunset, ushers in the beginning of Tishri. So that Tishri marks the Shemitah's culmination and its the same month that most dramatically manifest the repercussions of that financial nullification.

Now what happens if instead of looking at the greatest long term collapses in history, we look at the greatest single day crashes in history? When the greatest % of wealth is wiped out in a single day? Do any of these crashes take place around the time of Tishri?

The top 10 of these crashes, the odds of focusing on one single month out of 12 would be slightly less than 1 in 10. So what's the answer? Of the greatest single day crashes in stock market history, the majority of them cluster around the single, solitary month of Tishri. In fact the majority of these crashes take place in a space of time and the Biblical calendar is only 2 1/2 weeks long. That's over 1000% points higher than what should naturally take place. And which two and 1/2 weeks are they? The 2 1/2 weeks centered on the month of Tishri.

For ages the financial people have been mystified by a phenomenon they couldn't explain. It was the phenomenon of the greatest stock market crashes in history, all clustering around one particular time of the year. The autumn. Specifically, the period of September and October. One explanation after the next was offered up. But it never answered the mystery. But the mystery of the Shemitah gives the answer. Autumn is the time appointed by God for the nullifying of the financial realm. And the period of September - October is the Biblical month of Tishri. The very month of the nullifying of the financial realm in the Bible. Now what happens if we look at the greatest volume point crashes in history. Do any of these volume crashes take place on the day of financial nullifying? In ALUL 29, and not just any ALUL 29, but in the ALUL 29 that takes place only once in 7 years. A stock market crash can take place at any time in a 7-year period.

What is the proximity of the 5 greatest point crashes in stock market history to the once in 7 year Biblical day of financial nullifying?

The 5th greatest stock market point crash in history: Proximity to the Biblical day of nullification 99.6%
The 4th greatest stock market point crash: 97.5%
The 3rd greatest stock market point crash: 100%
The 2nd greatest stock market point crash: 99.3%
The 1st greatest stock market point crash: 100%

The average proximity and convergence of the 5 greatest stock market point crashes in history to the Shemitah's once in 7 years Biblical day of nullification is **99.3%** *Of the 5 greatest crashes in American History, the proportions taking place in the wake of the Shemitah's 7 year climax or at that moment of climax itself is 100%*

THE RISE AND FALL OF NATIONS:

The phenomenon of the Shemitah not only lies behind the financial and economic realms, but the mystery is so big it affects the ascending and collapsing of nations.

The Hebrew word Shemitah can be translated as 'The Release' but it can also mean 'The Shaking', 'The Fall', even 'The Collapse'. In 586 BC the Shemitah release wipes away not only financial accounts but an entire nation. The kingdom of Judah. It also determines the rise and fall of the Babylonian empire; and the rising of the Persian empire.

In the second part of the Mystery of the Shemitah, Jonathan Cohn reveals how the Shemitah has been linked to the shaking of nations; and has been determining the greatest transformations of world history.

In the early part of the 20th century the greatest shaking of the nations is at the coming of the First World War.

1917 - was the key turning point of that war. 1917 was the year of the Shemitah.

1917 was the year that one of the oldest empires on earth, the Russian empire, collapses.

It would lead to the formation of the Soviet Union. In that same year comes another turning point in world history. America breaks out of its isolation and enters the First World War. That entrance would ultimately lead to even more collapses of power.

Before the war was over three more empires would collapse:

The German empire,

The Austrian-Hungarian empire; and

The Ottoman-Turkish empire.

As the Shemitah involves nullification, so the war would bring about the nullification of power and kingdoms, of landscapes.

The Shemitah brings the fall of power, but also the rise of other powers. The Shemitah of 1917 with America's entrance into the war, marks the beginning of America's rise to military and superpower.

In that year, the British empire, in debt to America, reaches a state of near bankruptcy. But on the other side of the Atlantic, America would become the greatest creditor nation in the world, replacing Great Britain.

The world's financial center departs from London and Europe; and switches to New York.

America becomes the center of the world's financial system. Now what happens if we move 4 Shemitah's (28 years) into the future?

Shemitah 1945 - The peak year of the second great shaking of nations; and the second great cataclysm - The 2nd World War.

The conflict of the Second World War begins in 1938 when Hitler seizes Austria and Czechoslovakia. 1938 was the Biblical year of the Shemitah; and it began the Biblical cycle of Shemitah. 1938 to 1945.

The world cataclysm will follow the cycle of the Shemitah.

As the year of the Shemitah - 1944 to 1945 approaches, the Second World War reaches its peak. Again, the Shemitah brings the falling of powers, the collapsing of empires, and the nullifying of landscapes. But it builds up to the greatest nullifying power the world had ever seen with the dropping of the atomic bomb. The end of the Shemitah cycle reached its peak and the end of its cycle in September 1945. That very same week the Second World War reached its end. The war is sealed by the victors' procession coming to Berlin days after the surrender of the Japanese empire. It is the only procession that will take place in the war's conclusion, sealing the Second World War. The date of that procession is September 7, 1945. That is ALUL 29, the Shemitah's climatic day and the very day that ends the Biblical cycle.

The Shemitah brings the collapse of the great European empires. And the beginning of a new world order and the rise of the two superpowers. It brings America to its greatest pinnacle of power; as the world's pre-eminent superpower. And a new world financial order comes into being called 'Braden-woods' in which the currency of the nations are now based on the American dollar. But the Shemitah can also mean the fall.

If we move forward by 4 Shemitah's again, we move to the Shemitah of 1973, which is another great falling. At its outset, America makes another fateful decision to legalize the killing of its unborn children. That same month, its financial realm begins its long-term collapse that will lead into a global recession.

That same year (1973) of the post-war Shemitah 1945 'Braden-woods' system; based on the American dollar, irrevocably collapses. And that same year America suffers its first military defeat in modern history, as it loses the war in Vietnam. The date it suffers that first defeat is August 15, 1973, is significant.

It is the same date (August 15) in which America had won its greatest victory, the Second World War in the Shemitah of 1945.

The Shemitah can mean the shaking. From 1973 to 2001 (forward 4 Shemitah's). As that Shemitah reaches its climax in its very last Shemitah week, the time of nullifying, it brings in 9-11-2001.

As the Shemitah can mean 'the fall', so comes 'the fall', literally, of the towers. The symbols of America's prosperity. As the Shemitah can mean 'the collapse', so the towers collapsed to the ground; and a new peril begins.

THE MYSTERY OF THE TOWERS

In Biblical Hebrew the word for tower is MIGDAL. MIGDAL comes from the Hebrew root word, GADAL, which means to be made great, to be enlarged, to be magnified, it can also mean pride.

The link between towers and greatness forms a section in the book called Cahn calls the Mystery of the towers. It has to do with the connection of the rise of towers and the rising of kingdoms.

The very first tower mentioned in the Bible (the Tower of Babel) is linked to man's attempt to obtain greatness and glory.

Genesis 11:4 And they said, Go to, let us build us a city and a tower, whose top may reach unto heaven; and let us make us a name, lest we be scattered abroad upon the face of the whole earth.

The tower is to be the epitome, the embodiment of a civilization. Could the rising of high towers be linked to the rising of kingdoms? Civilizations? Powers? Up to the 19th century, the greatest towers built on earth rose out of the soil in Europe. But in the year 1870 that all changed. 1870 was the year of the completion of the world's first skyscraper. It rose not in the old world, but in the new world. It rose up in New York City. It would be the tallest secular building on earth. Could its rising have marked a change in world power? The year the tower rose was 1870. 1870 marks the beginning year of the gilded age. The beginning of America rising as the world's strongest industrial power.

In 1871, the very next year after the tower ascended, a momentous change took place in world history. The British empire would be eclipsed. America would become the strongest economic empire on earth. From that time forward, the world's highest towers would ascend from American soil.

Higher and higher, paralleling America's continual rise on the world stage.

The tower speaks of rising but the Shemitah speaks of a fall. Tower speaks of a nation's glory; but the Shemitah speaks of a nation's humbling. America reaches its greatest moment of supremacy relative to the rest of the world, in the year 1945. At that same moment in history, a tower is conceived. Its to embody America's new global pre-eminence. It will be called, the World Trade Center. It would epitomize the American based new world order. The tower is conceived in 1945. 1945 is the year of the Shemitah. Its construction begins in the year 1966.

1966 is the year of the Shemitah. Its building would take 7 years to complete. Those 7 years constitute the 7 year cycle of the Biblical Shemitah. It is finished and dedicated in 1973. 1973, is the Biblical year of Shemitah.

The tower is conceived in the year of the Shemitah - 1945

The tower's construction begins in the year of the Shemitah - 1966

The tower is completed in the year of the Shemitah - 1973

The tower is destroyed in the year of the Shemitah - 2001

The Bible speaks of the rising, the power, the glory of nations; but the Shemitah speaks of the fall of nations, and the humbling of a nation's glory. In the year of the Shemitah; in its climactic last week and peak, the towers of a nation's glory fall to the earth. At the Shemitah's time of nullifying the towers are nullified.

And it was shortly before the year 2001 that something momentous happened in world history.

As the 20th century came to an end the age that had begun in 1871 also came to an end.

America's days of boasting the highest towers on earth were over. It had been eclipsed by others. Now the highest towers on earth rose from Asia.

We've seen a connection between the rising of towers and the rising of kingdoms. But if the rise of high towers speak of the rising of nations, then what does the fall of towers speak of or foreshadow?

It all took place in the climactic days of the Shemitah of 2001.

The warning of the Shemitah is this:

A nations blessings, its prosperity, its sustenance comes from God alone. If a nation greatly blessed by God should drive God out of its life, and defy Him and war against His ways, then those blessings and that prosperity and that sustenance will be removed.

In the case of a civilization that has reigned as head of nations, the crown it has born will be removed.

THE MYSTERY OF THE SEVENTH SHEMITAH.

Near the end of the book is a section titled, The mystery of the seventh Shemitah.

This section reveals prophecy about the seventh Shemitah. In ancient Israel, every 7th year was the Shemitah; but every 49 years was the 7th Shemitah. The 7th Shemitah carries its own significance because it ushers in what the Bibles calls the year of the jubilee. The jubilee is based on the Shemitah. It is in effect, a super Shemitah. The jubilee was a year of liberty and restoration. During the jubilee, those in bondage were released and set free. During the jubilee, if you had lost your land, it would be restored. If you had lost your family inheritance, it would be given back. If you'd lost the house of your fathers in the Jubilee, you'd come home.

Leviticus 25:10 And ye shall hallow the fiftieth year, and proclaim liberty throughout all the land unto all the inhabitants thereof: it shall be a jubile unto you; and ye shall return every man unto his possession, and ye shall return every man unto his family.

The jubilee was the year of being restored to what was lost. Regaining ones ancestral possession, returning home. Because of the lack of historical records of the jubilee celebration, the second temple period, we can't say with certainty when the jubilee takes place. But we do know the timing of the Shemitah and we did know the jubilee must take place the year following the Shemitah, specifically, the 7th Shemitah. So could the mystery of the Shemitah open up a revelation concerning end time events? Even a prophetic jubilee of restoration? It is the jubilee of Shemitah from September 1916 to September 1917.

The jubilee concerns the year after the Shemitah. The year after the Shemitah begins September 1917 and ends September 1918. Could there have been a prophetic restoration within those dates in the year after the Shemitah? The answer is yes. And its an amazing one. The Jewish people had lost the land of Israel. Their homeland in 70 ad. For 2000 years they wondered the earth. The Bible foretells that one of the key events of the end time would be the return of the Jewish people to their restoration, to their ancient homeland, Israel. 1917 the year of the Shemitah brings the collapsing of the Ottoman Empire. It just so happens that the Ottoman Empire is the land that has held the land of Israel for 400 years. The British empire under general Alanby is advancing on the land. In November of that year the British Government issues the Balfore declaration. The Balfore declaration declares the land of Israel would be given to the Jewish people as their national homeland.

Its the first time in 2000 years that the land is being restored to the Jewish people. The year following the Shemitah was September 1917 to September 1918. The Balfore Declaration takes place in November, 1917. Thus, the land is restored to the Jewish people in the year corresponding to the Jubilee. Its a prophetic jubilee and according to the mystery, the Jewish people would return to the land they had lost to their father's possession, to their ancestral home land. Everyone shall return to their possession. The mystery of the jubilee concerns the 7th Shemitah. So what happens if we move forward from the Shemitah 49 years (7 Shemitah's)? It brings us to the Shemitah of September, 1965 to September, 1966. The year following the Shemitah would begin September 1966 and end September 1967.

Did anything significant take place within this year and these dates? Any event of restoration? The answer is yes. According to Bible prophesy the Jewish people have to be restored not only to their homeland, but also to their ancient holy city of Jerusalem.

In the midst of the six-day war, Israel soldiers enter the lions gate of the Biblical city of Jerusalem, thru gun fire, they make their way to the holiest sight, the western wall. There they weaped; and after 2000 years the

Jewish people are restored to their ancient capital Jerusalem. It happens on June 7, 1967, within the parameters of the year following the 7th Shemitah. The jubilee, the 7th Shemitah had ushered in the restoration of the land. According to the mystery of the 7th Shemitah, the Jewish people had returned to what they had lost 2000 years before, Jerusalem. They had regained their long lost possession and returned to their ancestral home. The two great restorations of the land happened according to the mystery.

The Bible ordains that in the year of the jubilee, the rams horn is to be sounded. The first thing that happens after the soldiers reached the Temple Mount in 1967 is that the rams horn is sounded from the Temple Mount. The sound of the jubilee!

The man who sounds it is Rabbi Goran. Rabbi Goran was born in the year 1917. The time of the other restoration. When he sounds the shofar, he is 50 years old. The number of the jubilee.

The mystery of the Shemitah lays behind the two great restorations. No, the pattern does not have to continue, but if it did, what would be the 7th Shemitah from the last restoration?

The 7th Shemitah begins September 2014 and goes to September 2015. The year following the Shemitah is September 2015, to September 2016.

While the cycle doesn't have to continue and nothing significant has to take place, in the last two occurrences it has meant war in the Middle East, in the land of Israel and a war resulting in a prophetic restoration.

THE NEWS OF RESTORATION IN THE MYSTERY OF THE SHEMITAH

In its last two manifestations the mystery of the Shemitah has appeared to have intensified and strengthened. Its intensification has been so great that it's involved nothing less than the worlds greatest financial collapses in world history.

The Shemitah began in September 2000. The following month American production begins to fall. Within a few months more the nation is in a recession. As the Shemitah, it's September 2001, and a calamity strikes. September 11, the calamity causes wall street to shut down for the rest of the week. The following Monday it reopens. That day is historic. It is the greatest point collapse in the market of the day. Fortunes are wiped out, accounts are wiped out. On what day did this greatest collapse in stock market history take place?

September 17, 2001. But on the Hebrew Biblical calendar that date carries a different name. The stock market collapse takes place on ELUL 29. The date appointed from ancient time, for the nullifying of the financial realm. The wiping out of financial accounts. ELUL 29, the sign of judgment against a nation that's driven God out of its life and pursued idols and material gain. The judgment that specifically strikes a nations spiritual and financial realm. That greatest financial collapse in history. That record would hold for several years. Until a greater crash would come. The stock market had been rising for several years after the financial death that following 9/11; and then comes the next Shemitah. It is September 2007 within one month of its beginning, the stock markets momentum begins to reverse. The ascent is over - it begins to fall and the fall continues until the Shemitah reaches its peak in September, 2008. When the fall turns into an epic financial collapse. The financial collapse reaches its peak at the end of September 2008 with what becomes the greatest single day crash in wall street history.

That morning in the New York stock exchange the morning bell refuses to sound. Even Wall Street takes it as a warning. The stock market crashes over 700 points. On what date did the greatest crash in Wall Street history take place? September 29, 2008. But the ancient Biblical calendar holds a different name. The greatest stock market collapse in world history happened on ALUL 29, the exact day appointed from ancient times, for the nullifying of the financial accounts, the wiping out of debt, the day Shemitah, the sign of judgment against a nation that has driven God out of its life. The judgment that specifically strikes a nations economic and financial realm.

The 2 greatest collapses in stock market history were on those dates, each took place on the same, exact day on the ancient Biblical calendar; and they just happened to take place on the precise day of the ELUL 29,

which is the day to wipe clean from its financial accounts - to wipe clean financial nullifying. September 17, 2001 and September 29, 2008. And its not only ELUL 29, but it can only be one ELUL 29 that can constitute the day of Shemitah (the day of nullifying). So on which ELUL 29 did the greatest stock market collapse take place in the yer 2008? It happened on the once in 7 years ELUL 29. The exact one that constitutes the day of the Shemitah.

And the greatest crash of 2001....when did it take place? It happened on the once in 7 years ELUL 29. This is the day that constituted the day of Shemitah. So when all across the world Jews are symbolically canceling out their debts to each other, the greatest wiping out of financial accounts is taking place on wall street and sweeping across the globe.

According to the ancient mystery, the financial nullification has to take place 7 years apart from the one before. So the two greatest financial nullifications in Wall Street history, take place 7 years apart. Not only on ALUL 29, but 7 years apart. 7 exact, Biblical years apart. Down to the exact season, the exact month, the exact day, the exact hour, the exact minute, the exact second, the exact closing bell. No human hand in the world could have created such a thing. It required the working together of every financial interaction and transaction in the world. It even required that 9-11 had to have happened exactly when it did so it was 9-11 that caused wall street to collapse. In 2001 on the exact, ancient, appointed day.

THE MYSTERY OF THE SEVENS

The Shemitah is a mystery based on the number 7. In the chapter entitled The Mystery of Sevens, Cohn points out the mystery of 7's in the two crashes. Each takes place marking the climactic end of the 7th year and the 7 year cycle.

The mark of the Shemitah is the number 7. In the crash of 2001, the % of wall street wiped out was 7%. In the crash of 2008, the % of Wall Street wiped out was 7%. The number of points (nullified) was 7%. The sign of the Shemitah had again appeared to a nation in rapid order. In its appearance is a warning. America's blessings come from GOD. No nation can wage war against the source of its blessings and expect those blessings to remain. If America does not return to God then according got the mystery, the American age as we know it will come to an end.

THAT WHICH LIES AHEAD

Jonathan Cahn is inevitably asked what lies ahead? The book contains a section about that which lies ahead. In it he deals with the signs and patterns by which the Shemitah manifests as well as dates, but Cahn will always first, issue two cautions:

1. We cannot be dogmatic, placing God in a box. Nothing has to happen in any given Shemitah. The mystery doesn't have to manifest in every cycle.
2. It can happen and one should be aware and ready when it does. The dynamics of the Shemitah, when it does manifest. When they tend to do so, not so much at the Shemitahs' beginning but at its end as it approaches its autumn climax. Cahn has often warned that if America does not turn back to God, its crown as head of nations will be removed. In the very first weeks of Shemitah that began in September 2014; a momentous change took place. The crown that America had born since 1871, as noted in the book as the strongest economic power on earth, was removed. A new nation had eclipsed America and taken away its crown. China.

Cohn has noted that in its current year of the Shemitah, the climactic day, ALUL 29, will take place during a solar eclipse. The last time these two events converged, it led into Black Monday. The worst stock market crash in history.

America's apostacy from God has not stopped or slowed down, but it has continued. Regardless of whether it takes place within the parameters of the Shemitah, or beyond, Cahn, believes a great shaking is coming to

America and the world. One that will dramatically impact the economic realm; the financial realm, and yet, not limited to those realms.

When Cahn is asked if America's future holds judgment or revival? He answers, that it can be both. Revival can be birthed in judgment.

At the end of the book, there's a title **IN THE LAST SHEMITAH** - In it, Cahn brings the Shemitah to its ultimate conclusion. There is a day appointed for every person when all they know and all they've known collapses and the sovereignty of God is over everything. This will be the final Shemitah, when earthly life is finished and we stand before God on the day of judgment, in light of eternity.

How do we prepare for such a day? How does one prepare for the coming judgment on earth? The same way.

There's only one way to prepare - that is to get your life right with God. In Hebrew, the word for safety is Yeshua. YESHUA is the real name of Jesus. Outside of him there is no safety but inside of him there is no fear. The key is to get your life in order. The only way to get your life in order, according to the bible, according to its own words, is to be born again. He said you must be born again or you cannot enter into heaven. You need to take the time you have more seriously.

The time for getting right isn't tomorrow - its now. If there's anything in your life that's not in the will of God, get it out now. Don't say tomorrow - DO IT NOW!

If there's anything that should be in your life - that God is calling you to, DO IT NOW!

Whatever isn't grounded in God will be shaken and will fall, therefore, this call is to ground yourself, all the more strongly in the word of God.

One thing that the Shemitah strongly shows us, no matter how it looks or how it seems, GOD IS IN CONTROL!!! For the one who is in God, there is no reason for fear, but peace!

As it is written tho the earth be moved and the mountains fall in the midst of the sea; tho the mountains shake with swelling, we will not fear for God is our refuge and our strength in very present times of trouble.

Everything that can be shaken shall be shaken. But for those who place their hope, trust, and lives in God, and in His Word, THEY SHALL NEVER BE SHAKEN!
