## General Meeting

Thursday April 25, 2019

Mad Fish Restaurant, West Ocean City

Door open at 10:30 am

Program at 11:00 am

**PROGRAM:** The luncheon theme will be “Welcome Home, Legislators” and the guest speakers will be Maryland State Senator Mary Beth Carozza, Maryland Delegate Wayne Hartman and Maryland Delegate Charles Otto. They will give us an overview of our state happenings in Annapolis. In addition, Worcester County Commissioner Chip Bertino will speak on local issues.

**PRESIDENT’S MESSAGE:** Spring is the time for new beginning—planting, growth and beauty. It may be hard to see hope in this season with the daily barrage of divisive news. We are being presented with moral issues of the most personal nature, humanitarian crises never before encountered in America, extreme political leveraging and natural disasters beyond comprehension.

But, as we pray for good outcomes for these serious states of affairs, let us also keep our eyes on the good that is being accomplished, of the small victories being made that reflect our values, and of the valiant efforts of those fighting to uphold our Constitutional rights.

RWWC’s April 25 General Meeting and Luncheon will “Welcome Home” our State legislators from Maryland’s 2019 General Assembly session. They have worked diligently on our behalf and we look forward to hearing the important issues of both the State and Worcester County.

Our newsletter contains information about RWWC’s busy spring happenings. We invite all members to join us and join in! We have fun, we enjoy the company of like-minded friends, and most of all, *We Make a Difference!*

Best wishes for a beautiful Spring and Easter Season,

**A LETTER TO THE EDITOR FROM OUR LEGISLATIVE CHAIR, THE COASTAL DISPATCH—**  
**APRIL 5, 2019**

**Our Direction Questioned**

Editor:

Considering the recent failure of the U.S. Senate to pass Sen. Ben Sasse's proposed legislation that would require that a baby born alive after an attempted abortion be given the same medical care as any other living, breathing human being, I have to ask where we are as a nation.

I ask myself how it can be that one may be fined thousands of dollars, and even incarcerated, for molesting or disturbing the eggs of a Bald or Golden Eagle (Bald and Golden Eagle Protection Act 16 U.S.C. 668-668d), while at the same time abortion (which certainly molests, disturbs and then kills a human life) is perfectly legal and is even celebrated by many citizens of our country.

I wonder about the attitude of so many elites in our government and intelligentsia who seem to think work is nice, but not really essential, so if your job goes away because of minimum wage laws, or government regulations concerning the environment or health care, etc., why worry? The government will provide food stamps and housing vouchers and an unemployment check. And those who disagree with this idea, who believe work is better than welfare and want to promote policies that encourage work over welfare, are labeled as mean, heartless and racist.

I am sick, just sick, about the heroin epidemic and the path of death and destruction it is cutting through so many families and neighborhoods and our society in general. There has always been addiction to various substances, but not on this level. How did we get here? Why do people place so little value on themselves? May I posit, for the sake of argument, that perhaps one of the causes of these societal ills is our embrace of the theory of evolution and the denial of the truth of the Creator God. When we choose, for whatever reason, to deny that humans are the intentional creations of a loving God, created with purpose (to worship, to work, to serve) then what we have done is dehumanize and convey the message that human life in and of itself has no intrinsic value, it has only the value placed on it by other humans.

When we place more value on the life contained within a bird's egg than we do on the life contained within a human womb, what are we saying? If you're inconvenient, you're expendable? I will care for you for only so long as it benefits me? Think about what this means for you when you are old, and frail, and ill.

When we don't acknowledge that one of the characteristics God gave humans is the desire to work and produce, then we are stealing some of a person's humanity. We are saying, in effect, you're not important, you have nothing to contribute, we don't need you.

When we do not acknowledge that we were created to worship, then we fail to realize that the focus of our worship, if not God, will be something material that will never satisfy. From this arises addictions, not just to drugs, but to anything that satisfies that need to worship – power, wealth, fame, alcohol, on and on.

We have believed the lie for so long. Are we open minded enough to admit the possibility that what we've been doing is not working?
