What's New

For the classics and the innovations. For the small and for the big ones. For small quantities and large series. We are your partner when it comes to packaging food. The huge variety of food packaging is reflected above all on the shelves of the stores. The focus is always on the perfect presentation of your products. We would like to support you and offer you the optimal packaging process.

Whether skin, shrink, vacuum, MAP, mirroring or shrink packaging - with our machines we offer you the optimal solution for industrial production. We convince not only by a good price-performance ratio, but also by high functionality, highest packaging speeds and a complete service which optimally supports your value chain.

We are happy to offer you your individual machine. Talk to us.

SMARTVAC PERFORMANCE LINE

In cooperation with top suppliers, it is possible to equip your SmartVAC thermoforming packaging machine with many types of printing, labeling, filling and weighing technology. Due to our 3D milling technology, there are hardly any limits to the customer-specific design of the packaging. For the planning and implementation of complete high-performance packaging lines, we are at your disposal together with our partners.

Get in contact

Arrange a meeting, request a BAUMANN Expert Talk on a topic of your choice, or let us know how else we can assist you. We will be pleased to help you.
