

Compact, Flexible, Affordable Cartoner for Low - Speed Production

Product description

The versatile CWL - 420 end load cartoner is the answer for difficult-to-handle products that run best with intermittent motion. The compact footprint, flexible design and affordable price of the machine make it an ideal solution for low - speed applications.

The CWL - 420 is an intermittent horizontal cartoning machine and is also suitable for food packaging, chemical packaging and packaging of related industries, with a wide range of use, short adjustment time, easy assembly and debugging.

The products can be changed in very short time.

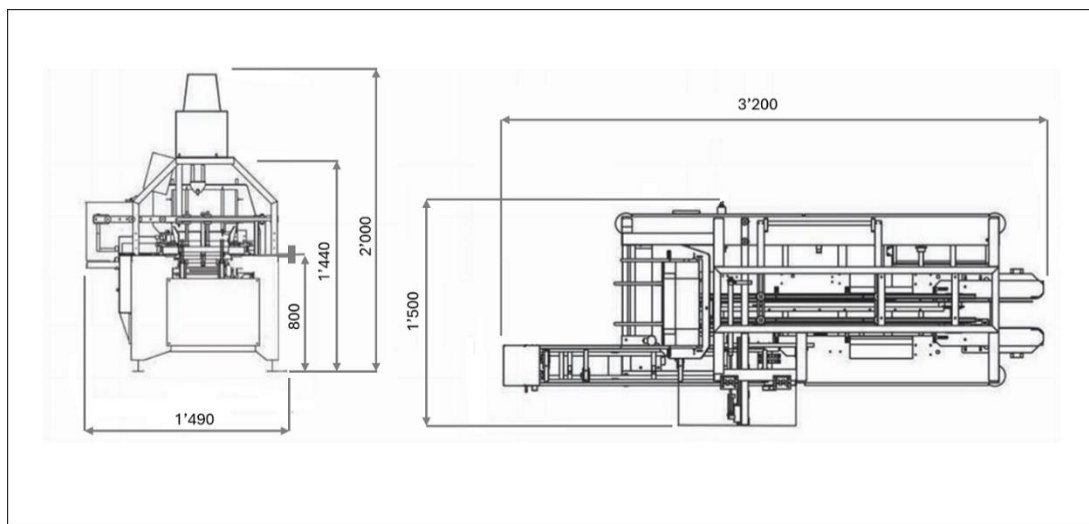

This cartoner is suitable for the production of single variety in large quantity and can also meet the production of multiple varieties in small quantity. The discharge port of the cartoner can be adapted to various systems.

PRODUCT DESCRIPTION

This cartoner adopts intermittent design, PLC control, simple structure and easy maintenance. The cartoning system is equipped with a push-loading overload protection function to protect the blister and leaflet from being safely loaded into the carton. The machine is designed for low maintenance. If there is no product, no carton will be placed, and the alarm will sound.

Hot melt system

- Maximum capacity 65 cartons
- Intermittent single pusher feeding
- PLC control system and Siemens smart1000 (10 inches) HMI screen
- Double-headed vacuum suction and discharge box
- Quick size adjustment without replacement
- Stainless Steel construction
- GMP compliant design

Technical Data		
Machine Speed max.	65 cartons / Min	Depend on Product size
Carton Dimension	Length	120 – 190 mm
	Width	35 – 95 mm
	Height	25 – 90 mm
Power	240/380V / 3 Phase	50/60 Hz. 2.5 KW.
Control	24V VDC	
Air	Operating Pressure	88 Psi
	Line Pressure	Constant 103 Psi
	Air consumption	300 L/min
Sealing System	Dual Hotmelt	IS-910 Melter
Date Coding System	Ink Jet	Edding
Machine Weight	900 Kg	

Date Coding included

Options: Available

- Tuck - in Style
- Leaflet inserter
- Automatic carton magazine
- Outfeed system
- Case packer
