

BAUMANN ENGINEERING PTY. LTD.

EXPERT FOR INDUSTRY

DELIVERING ADVANCED SOLUTIONS

We work within the food, beverage, packaging, and manufacturing industries to minimize downtime and deliver ongoing improvements to keep your organization operating at its peak.

Food processing equipment repair primarily focuses on regular service that can help the machine perform at its best. With the right maintenance, one can easily avoid wear and tear, which generally occurs with an extended usage time.

➤ Call us for details.... + **61 2 720 521 70**

OUR PRODUCTS OUR BRANDS

- Thermoform Vacuum Packing Machines
- Cartoning Machines
- Vertical Form Fill Seal Machines
- Labelling and Marking Systems
- Case Packers, Palletizers
- X-Ray Systems and Metal Detectors
- Conveyors and Accumulation Systems

If you require high-level food processing equipment and spare parts from Baumann Engineering, we have genuine food processing machine parts for our equipment, which means that your repairs are exceedingly simple without relying on external contractors. We can provide you with the right parts for equipment bought from us, which means your downtime will be reduced to an absolute minimum. If you have any food processing equipment that is currently in service, then you can be assured that we have the original parts for that processing Unit.

If you require high-level food processing equipment repair, then Baumann Engineering can provide the same.

We do conduct inspection and testing of equipment, done by skilled and fully certified professionals.
