

LABELLING SYSTEMS - CWL-150 C

Description

Our portable CWL inline belt feed labeler is the perfect cost – effective labelling solution for most packaging lines.

The portability of the CWL enables operators to easily position the labeler anywhere in their Packing line to apply virtually any size of pressure sensitive labels to the top of boxes, food trays, Sachets and other packages.

You will be amazed at the unmatched speed, precision and versatility delivered by the CWL. The labelling machine delivers what you want, when you want it and where you want it.
