

Capability Statement

Disciplined program and project management

WE ARE

...an independent consultancy specializing in engineering, project, and program management. Our strength lies in combining deep industry knowledge with proven delivery methodologies and strategic change management practices.

With a unique blend of technical insight, commercial experience, and a relentless drive for continuous improvement, we empower clients to make informed investment decisions, optimize delivery performance, and achieve measurable results.

We understand not only the complexities of engineering and infrastructure projects, but also the broader business impacts of critical delivery decisions, allowing us to guide clients with clarity, confidence, and impact.

WE SUPPORT

...our clients through a range of services, including system implementations, upgrades, and broader business transformation initiatives. Our team also offers independent project assessments, quality assurance, and strategic guidance on program structure and management. Additionally, our consultants assist with RFQ processes, and selecting the right systems to meet organizational needs. We're experienced in both Design & Construction (D&C) and Engineering, Procurement, Construction Management (EPCM) settings, allowing us to adapt to varying project delivery models.

Results-oriented, quality outcomes

WE DELIVER

...successful projects, safely, on-time, on-budget, and to rigorous quality standards. Some recent engagements include:

- Resourcing leading roles including project management, delivery and quality assurance on major projects.
- Management and coordination of all aspects of project delivery from concept development, specification, estimation, planning, and construction to testing and commissioning for the design elements of various infrastructure projects.

WE PROVIDE

...experienced professionals who can support projects in a variety of ways:
