

## Infant Program

6 weeks to 18 months

During these precious months, infants need a warm, developmentally appropriate, sensory enriched environment. Following our play-based curriculum, our team of caregivers provide the sensory fun to spark their curiosity and encourage them to explore. Babies flourish best when they are softly spoken to, well cared for, and given the opportunity to safely explore their surroundings. We prioritize nurturing strong social/emotional growth alongside language development, fostering independence and critical thinking skills.

## Toddler Program

18 months to 3 years

Toddlers are very busy individuals as they are constantly on the move, this is why we take their energy and turn it into positive learning moments. Following our developmentally appropriate practices, we create a strong social/emotional environment that allows the children the ability to fine tune their gross motor skills and to explore a fun, safe environment. Developing language skills are keys to our toddler room success. We will make sure they have plenty of fun, with stories, songs, and creative activities that spark their curiosity both indoors and out. And yes, we're right there with them, starting the potty-training journey together!

## Universal Pre-K 1 Program

3 years to 4 years

In our award-winning UPK program children will have access to a high-quality pre-k curriculum that sets individual child goals and is aligned with Ohio's Early Learning and Developmental Standards. Our program builds on each child's interests and natural curiosity while offering daily learning activities that are fun and focused on language and reasoning, science, math, block play, dramatic play, art and music and movement. We work in small groups with teacher lead activities as well as large group student and teacher lead activities. All of this is done as the children laugh and grow daily!

## Universal Pre-K 2 Program

4 years to 5 years

We believe children learn best through active engagement and enjoyment in the learning process. In this room we have created a space that is fun and allows the children to explore their interests freely. We ensure every child is ready for kindergarten by refining the necessary skills beforehand. Our curriculum, which is aligned with Ohio's ELD's, encourages children to make their own choices, solve problems, find their voice, and grow together.

## Step Up To Quality

Step Up To Quality, Ohio's voluntary rating system, recognizes early care and education programs that exceed quality benchmarks over and above minimum health and safety standards. We joined in 2006 and proudly hold a FIVE Star Rating.

Our high-quality early childhood program offers a safe, nurturing environment that supports children's physical, social, emotional, and intellectual growth. Features include warm teacher-child interactions, age-appropriate learning activities, culturally diverse perspectives, nutritious meals, ongoing professional development for staff, and regular communication with parents. We believe in child-led learning, curriculum tailored to individual interests, and fostering each child's potential. Respect, unconditional love, and partnership with parents are core values. Our goal is to provide a nurturing, enriching experience for children, staff, and families.
