SADIE

ADOPTABLE: Mercedes "Sadie"

Spayed • Vaccinated • Microchipped Female •

DOB: June 30, 2025

Hi there! I'm Mercedes, but everyone calls me Sadie. My mission in life is simple: play hard, love hard, and make sure I'm the center of attention whenever possible.

I'm an energetic, happy little girl who approaches every day with excitement. Toy mice are my absolute favorite treasures—I love catching them, carrying them around proudly, and showing everyone my latest "hunt."

If there's fun to be had, you can count me in. When playtime is over, I transform into a cuddle expert.

I adore people and never miss an opportunity to soak up attention. Whether you're relaxing on the couch or moving around the house, I'm always happy to be nearby, making sure you remember that I'm available for pets and snuggles. I'm friendly, outgoing, and get along well with both cats and dogs. Because I love companionship and activity, I'd do best in a home with another playful friend. In fact, my brother Rex (formerly Walt) would be my top recommendation.

We've shared adventures, foster homes, and life's ups and downs together, and we'd love nothing more than to continue our journey side by side. If you're looking for a playful, affectionate, social butterfly who will fill your home with laughter, purrs, and plenty of toy mice, I'm ready to meet you. Love, Sadie

RUBY

Rescued: October 2024

Location: Fostered in Shakespeare

Medical Status:

Spayed • Vaccinated • Microchipped

Tripod (left rear leg amputated)

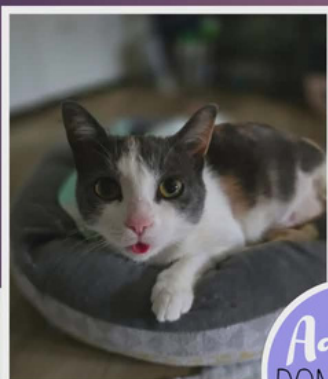

Special needs: paralysis & incontinence

Background: Ruby came into care in October 2024 alongside her mom, Opal, and two siblings. From the start, Ruby faced challenges — she dragged her left hind leg, causing repeated abrasions. With time and testing, it became clear she had sustained a spinal injury at birth or shortly after, resulting in paralysis. She has no sensation in her tail or privates and requires regular bladder and bowel expression. And yet... Ruby never let any of that stop her. She raced through her foster home just like any other kitten — curious, determined, and full of life. Due to ongoing infections, her left hind leg was ultimately amputated, and once again Ruby adapted beautifully. Her foster mom learned alongside her, advocating fiercely every step of the way. Today, Ruby is thriving and living her very best life.

Personality & Traits: Tripawd — and absolutely wonderful Strong-willed, confident, and bursting with personality Loves pom-pom balls most of all, plus springs and track balls Does well with cats and dogs Forms a deep bond with her human, as she depends on them more than most

Special Notes: Ruby is not defined by what she can't do — she is defined by her joy, her determination, and her incredible capacity for love. She is truly one of a kind and is searching for a very special family willing to walk beside her for life. Ruby doesn't need saving — she needs believing in. And loving.

Special Care Needs: •Requires regular bladder and bowel expression •Mobility-adapted but active and playful •Thrives with routine, patience, and committed caregivers Ideal Home: •A compassionate, dedicated family open to special-needs care •Someone who understands that Ruby gives back tenfold what she requires •A home where she will be cherished not despite her differences, but because of them
