

RTC Rescue Adoption Process

STEP ONE

Adopters complete an online application which includes 2 personal references and a vet reference. (Please make certain references are aware and Vet Clinic has been contacted to give permission for our team to speak with them)

STEP TWO

Applicant is asked to forward pictures of their home for a virtual home visit. Please check your email/junk mail, as we respond to all applications.

STEP THREE

After references have been interviewed, our volunteers reach out directly to the applicant to answer any questions about the rescue or kitty of interest.

STEP FOUR

On approved application, we reach out to the applicant to schedule a meet and greet with the cats/kittens of interest. An adoption contract is completed if a match is made and their new family member can go home with them the same day.
