1. What is ELUUMIS?

ELUUMIS is a pioneering biophotonic energy healing technology that works both physically through a proprietary device and remotely via the BioHealing Stream. The system utilizes light frequencies and intentional energetic streams that are broadcasted remotely. These frequencies are designed to target specific systems in the human biofield and physical body. The remote BioHealing Stream includes specially encoded audio protocols and requires practitioner training for optimal results.

2. Which ELUUMIS Product Was Tested?

This independent study was conducted on the **BioHealing Stream by ELUUMIS**, a remote healing broadcast streamed online.

3. Why Was the Study Conducted?

The purpose of the study was to investigate the physiological and energetic changes induced by ELUUMIS streaming on first-time participants using advanced biofield measurement tools. The study aimed to assess the immediacy and magnitude of healing responses.

4. Study Design and Data Collection

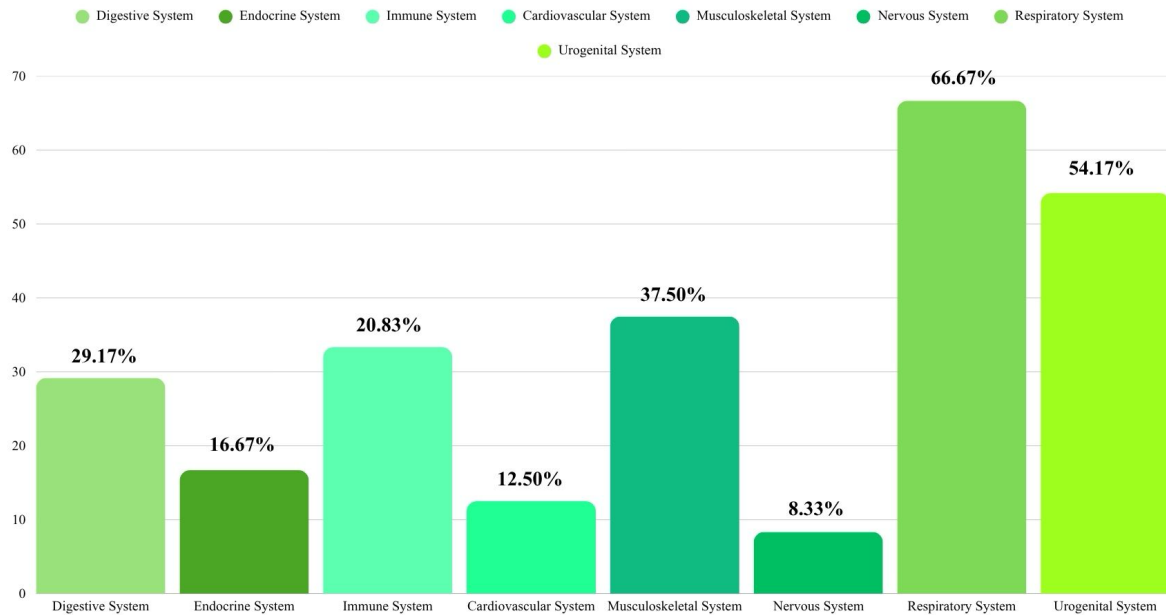

- Participants were recruited voluntarily from the Gaia Healers platform.
- Sessions were conducted via Zoom, with BioHealing streamed remotely.
- Each session lasted 20 minutes, followed by a 10-minute open discussion.
- A total of 4 **online sessions** were conducted.
- Data was collected before and after using the **Bio-Well Device**, which measures changes in the human energy field, stress levels, and organ-level energetic shifts.

5. Participant Demographics

- Total number of participants: **24** (Each attended only one session)
- Gender: 70% Female, 30% Male
- Average age: **42.3 years**
- All participants were new to ELUUMIS

9. Conclusion

The ELUUMIS BioHealing Stream demonstrated significant physiological and energetic shifts in a single 20-minute session. Increases in respiratory health, adrenal balance, and chakra alignment were particularly notable. These changes were registered both through measurable biofield metrics and participant-reported experiences.

To date, **no other remote healing technology evaluated by Gaia Healers has produced this degree of widespread, multi-system improvement** in a single session.

According to Bio-Well analytics, we can safely affirm that ELUUMIS ranks among the **most potent and rapid-action biofield technologies** available in the wellness and spiritual healing market today.
