

# RECALL MTSD SCHOOL BOARD

## Return To Educational Excellence

An excellent education has long been the tradition for Mequon-Thiensville schools. Our community needs board members who will focus on restoring our high quality academic standard and empower our students to thrive, not just survive.

MTSD Academic Milestones

Erik Hollander  
Since 2020

Chris Schultz  
Since 2016

## Stop the Board's Dereliction of Duty

Over the past year, the MTSD School Board has routinely abandoned their voting responsibilities to MTSD Superintendent Matt Joynt. Not only is this legally questionable, but it sends a clear message that the School Board is no longer advocating for the students of our district. New leadership is necessary in order to restore true and transparent representation of our students and our community.

## A New Approach in a Post-Pandemic World

- Consider re-prioritizing referendum funds
- Less focus on structures, more focus on students
- Address significant losses in instruction time
- Prioritize mental health and school climate
- Reverse the trends of declining test scores and rising failure rates
- Increase classroom participation and academic rigor

MTSD Failure Rate
