

Miller Bags “Infection Control”

**Miller
Bags**

- Miller Bags are produced using Aquapak’s Patented Hydropol Plastic: “A Safe and Environmentally Friendly ”
- Miller Bags are designed to help control the spread of infections and diseases by providing a solid plastic barrier between you and contaminated Laundry.
Safety First
- Miller Bags are available in (2) Versions: Hot and Warm water-soluble bags that safely dissolve in your laundry cycle reverting into water, carbon dioxide and harmless and inert mineralized natural biomass.
- Hot Water-Soluble Bags are for Institutional and Commercial use
- Warm Water-Soluble Bags are for First Responders or Domestic use.
