

EEZEE TAXIS

RELIABLE AND PROFESSIONAL SERVICE

01444 70 20 85

EEZEE Taxis Update 28.05.20:

As most of our regular customers will know, we at EEZEE set high standards of service and always look on how we can improve. We was the first in Mid Sussex and still the only taxi company to carry defibrillators (unless told otherwise) in carrying 2 defibrillators within our cars and always take our passenger safety very seriously.

From today “subject to availability” we will offer our customers on entering our cars a free face mask if they want to accept (while stocks last).

The Government have suggested restricting using public transport. We at EEZEE aim to help you sort alternative and safe transport, along with social distancing within our cars and hygiene safety. We care for our customers at all times.

Please step into our cars knowing they are clean inside and out and your health and safety is paramount to EEZEE Taxis “*free face masks*” subject to stocks and for a limited time.
