

How to Transform HK into a Global Innovation Hub

April 27, 2024 (Sat)

14:00-18:15

Peter Ho Lecture Theatre (LT10)

4/F, University Concourse, Yeung Kin Man Academic Building, CityU

Under the transformation of economic structure, we cannot only rely on the traditional businesses, such as property, securities, retails, and tourism. Instead, Hong Kong should also in parallel build up its own brand in selling unique, cost effective, innovative and creative technology to the "Belt and Road" and BRICS countries, so that we can increase more opportunities for the young professionals and trading revenue for Hong Kong.
