

HKSQ Technical Visit to Advanced Manufacturing Centre (AMC)

17 February 2023 (Friday) from 3pm to 5pm

Introduction	Upholding the idea of “Innofacturing Tomorrow”, HKSTP pioneers the state-of-the-art Advanced Manufacturing Centre (AMC) at Tseung Kwan O INNOPARK, providing a gross floor area of about 108,580 sq. m. The AMC equips companies of different scales with scalable, efficient, and dedicated logistics serviced manufacturing space, and assists them in embarking on technological innovation, high value-added and low volume but highly customised production with the application of advanced manufacturing and testing processes. The AMC also provides comprehensive services for logistics, warehousing, prototyping, low-volume assembly and cleanroom-enabled space. With its high-quality architecture, purpose-oriented and sustainable design, AMC’s has won recognition from various local, regional and international awards. View the full list of awards for AMC here .
