

THRIVE START

Early Intervention Support Pathway

A gentle first step when you're not sure what your child needs...

You might be noticing:

- Big emotions that feel hard to manage
- Challenges with other children
- Difficulty with transitions or routines
- Your child coping differently at kindy than at home

You don't need to wait for a diagnosis to get support.

This pathway helps you understand your child and what will help them thrive.

WHAT YOU'LL WALK AWAY WITH

- A clear picture of your child's strengths and needs
- Insight into what's driving behaviour
- Practical strategies for home and kindy
- Confidence in your next steps

NEXT STEPS (IF NEEDED)

We'll gently guide you toward what feels right:

- Parent support sessions
- Social and emotional group programs
- Ongoing play therapy

No pressure. Just options.

WHAT'S INCLUDED

Step 1 - Parent Intake Session

A relaxed conversation to understand your child's strengths, needs, and your concerns.

Step 2 - Kindy / Early Learning Observation

We visit your child in their learning environment to see how they engage, play, and regulate in real time.

Step 3 - Play-Based Observation Session

A child-led session in our playroom, a safe space to understand your child's inner world through play.

Step 4 - Feedback + Thrive Roadmap

You'll leave with a clear understanding of what's going on and what will help.

Step 5 - Written Summary Report

Simple, practical, and easy to share.

YOUR REPORT CAN SUPPORT

- Applications for Inclusion Support Funding (ISS) and other funding.
- Conversations with your child's kindy or educators
- Information sharing with your GP or paediatrician
- Evidence to support assessment and diagnosis pathways
