

OVERVIEW

Gemstone Lights® is an innovative permanent lighting solution for both homes and businesses that are built to last. Our unique system uses a proprietary controller with an open platform that allows the user to create any color or pattern they want. Each light is individually addressable allowing complete customization.

Gemstone Lights® are set in a customize color-matched track that offers a clean professional look. Our lights are water-resistant and individually connected and can last up to 50,000 hours.

TRACK SPECIFICATIONS

- Various track sizes to fit all soffits
- Color-matched to soffits
- Durable powder-coated
- Aluminum clean professional look
