BAISHALII[®]
AN ISO 9001 : 2015 COMPANY

A name that justifies trust...

The Process of checking to see whether a product or service is satisfying customer requirement -

Baishali Steels Private Limited, the pioneer in eastern India was set up in the heart of West Bengal which is located 25 km away from the city of Kolkata. The company started with the production of stainless-steel kitchen sink on 6 th October, 2006 and increased its product line to P.V.C Cistern, Water Storage Tanks, Dustbin and Household Drums.

Baishali was the first Stainless Steel Sink manufacturer in West Bengal as well as in Eastern India with the 'ISI' quality mark on it. After a very long and successful experience in PVC pipe trading in West Bengal, India, the initiative for manufacturing suddenly came to the young mind of our own visionary Entrepreneur Mr. Sanjay Kumar Jain and this led to the formation of the Baishalii brand in the year 2006. The company is ISO certified and our products cover the markets of West Bengal, Orissa, Bihar and Andaman and Nicobar.

The logo "A name that justifies trust" not only describes the superior attributes that enhances our products but also the emotional and loyal relationship which we want to build with our end customers.

Quality Assurance - The process of checking to see whether a product is satisfying customer requirement ...
