Full-Time

Senior OSINT Professional & Instructor – TS/SCI required

Gnosis Solutions is seeking to fill Senior OSINT Professional and Instructor position to support a Federal client in the Charlottesville, VA area.

Responsibilities

Work under limited supervision as a key member of the client's open source intelligence (OSINT) mobile training team. Specific responsibilities include instruction and exploitation on:

- Exploitation of social media, mass media, publicly accessible databases, gray literature and geospatial data.
- Production of Open Source Intelligence Reports (OSIRs), OSINT analytical products, and social network analysis.
- Coordination and collaboration with other intelligence disciplines to produce finished intelligence products, including threat assessments.
- Assessing and providing recommendations on emerging OSINT tactics, techniques and procedures (TTPs) as well as tools.
- Serving as a liaison for other Intelligence Community (IC) partners to enhance curriculum development.
- Responding accurately, and in a timely manner to Requests for Information (RFIs).
- Providing support to operational planning, technical papers, and other tasks as directed by the customer.

Additional responsibilities include:

- Reviewing content and applicability of existing courses.
- Providing input to curriculum development for OSINT training requirements.
- Updating/revision of course materials to reflect new subject areas or technologies.
- OSINT exploitation process improvement initiatives.
- Developing briefing materials, as well as brief senior personnel and officers as needed.

Required Skills and Education

- 10+yrs demonstrated intelligence experience with a BA/BS; 8+yrs demonstrated intelligence experience with an MA/MS.
- Extensive experience as an instructor or trainer.
- Excellent writing and presentation skills.
- Demonstrated expertise in OSINT research, collection management, or analysis or the exploitation of PAI or social media.
- Experience utilizing Commercial Off The Shelf (COTS) OSINT tools which include but are not limited to the Berber Hunter Tool Kit applications (e.g., SILO, Data Miner, and Babel).
- Prior military or government analytical training (e.g., all source, SIGINT, HUMINT or GEOINT).
- Demonstrated knowledge of signature reduction, OPSEC principles as well as experience collecting and exploiting from deep web and dark web.

Preferred Skills and Education

- Graduate of IC or Defense OSINT Training courses (e.g., DIA BOSIC, OS1, OSC 101, FBI OS101, Army OBC, OS301/OS302, USMC eOSINT).
- Experience conducting intelligence analytical support for the Department of Defense or Intelligence Community.
- Knowledge of data science/scripting languages and technologies, including Java, R Script, JEMA, and/or Python.
