Full-Time

Senior Analytic Tradecraft Instructor – TS/SCI required

Gnosis Solutions is seeking to fill Senior Analytic Tradecraft Instructor position to support a Federal client in the Charlottesville, VA area.

Responsibilities

Work under limited supervision as a key member of the client's all-source intelligence analysis tradecraft training team. Specific responsibilities include on:

- Supporting the delivery of a 10-day intelligence analysis tradecraft course focused on ICD 203 standards, logical argumentation, and analytic design.
- Development and delivery of entry, advanced, and specialty analysis training to intelligence professionals.
- Deliver materials (e.g., briefings, emails, and messages for customer audience) to communicate objectives and guidance for analytic modernization initiatives.
- Evaluate student all-source analytic production against all analytic tradecraft standards identified in Intelligence Community Directive (ICD) 203 and customer tradecraft standards.
- Develop, refine and elicit measurable student feedback from analytic tradecraft training.

Additional responsibilities include:

- Assisting the customer with preparing, editing, and disseminating periodic internal and external reports and special projects related to analytic tradecraft, as well as routine correspondence and recordkeeping relating to course administration and course evaluations.
- Developing briefing materials, as well as briefing senior personnel as needed.
- Conduct periodic short training sessions or analytic brown bag seminars.

Required Skills and Education

- 10yrs or more demonstrated intelligence experience with a BA/BS; 8yrs or more demonstrated intelligence experience with an MA/MS.
- Extensive experience as an instructor with strong student engagement skills.
- Formal training in analytic methodologies and tradecraft – excellent command of ICD203 standards and their applicability.
- Demonstrated experience supporting Intelligence Community customers with all-source intelligence analysis and production with an emphasis on accuracy, sourcing argumentation, and alternative analysis.
- Experience with instructional design.
- Experience rigorously reviewing complex all-source intelligence analysis products and providing detailed constructive feedback to analysts at all levels.
- Demonstrated excellent writing and presentation skills.

Preferred Skills and Education

- Experience with structured analytic techniques and familiarity with the STEEPRISE analytic framework.
- Knowledge of, and experience with, distributed learning methodologies and technologies.
- Experience with Adobe Premiere, Adobe Photoshop or other video/graphics editing software.
