Jordan Shepherd

Personal Profile

I am an adaptable and motivated individual able with a 'can-do' attitude to work, both independently or as part of a team with the confidence to communicate with anyone. I enjoy a challenge and will always give anything my all, easy or difficult. When I started rigging in education I enjoyed the challenge and gratification it gave, especially when I could see my model start to move. I would relish the opportunity to work for your organization and hope to become an asset to your company.
