What will you learn?

The PADI Open Water Diver course teaches you the basics of diving and how to stay safe through knowledge development and practical training. The course consists of three main phases:

- Knowledge Development (online, independent study or in a classroom) to understand basic principles and theory of scuba diving.
- Confined Water Dives to learn basic scuba skills in a pool or shallow, confined water.
- Open Water Dives to use your skills and explore the underwater environment!

Supporting Products:

Enroll in PADI's eLearning option and you can start learning right away. PADI Open Water Diver Online gives you the background information you need to dive safely and allows you to study at your own pace through an interactive computer-based program. Ask us how to get started TODAY!

You can also start learning with PADI's home-study materials – Open Water Diver Touch™ (a tablet app) or the Open Water Diver Manual and Open Water Diver Video (a book and DVD package).
