**For Import And Export**

# 2025

**Company Profile**

**+020 122 325 0391**

**[www.italbatoul.com](http://www.italbatoul.com)**

# About Us

**Al-Batoul Company started with the agricultural activities of fruits and vegetables in its own farms in the city of Al-Khatatbah since 1995, and since then the company has grown and grown and added new activities.**

**The area of al-Batool farms is about (1000) feddans in both Menoufia and Minya governorates. Its crops vary between vegetables and fruits, and the latest methods and agricultural machinery are used. Our farms have obtained the Global Gap And Smeta certificates.**

## Logistics

**The Pack house is located in a privileged location as it is only 100 km away from Alexandria port, facilitating the process of transporting and shipping products through the sea port. It is also 91 km away from Cairo Airport. In addition to the center of most agricultural cities and its proximity to the Lake Governorate.**

# OUR VALUES

## our mission

**To deliver the finest quality fruits and vegetables through meticulous sorting, packaging, and distribution. We are committed to maintaining freshness, safety, and sustainability at every step, ensuring our produce exceeds customer expectations while supporting farmers and promoting environmental stewardship.**

## our vision

**To be the benchmark for excellence in fruit and vegetable packaging by innovating sustainable practices, fostering strong partnerships with growers, and ensuring premium quality produce reaches every corner of the globe. We envision a future where our operations enhance food security and inspire confidence in the global supply chain.**

# introduction of Our import fruits .

## Why you should import fruits from Egypt?

Egypt is a big market in agricultural of fruits and vegetables because it have a Nile river. Plus it is fertile land and mild atmosphere make it suitable for many crops.

### 1-HIGH QUALITY

Egyptian crops are characterized by high quality because they are grown and monitored by the latest international regulations and European standards.

### 2-THE PRICE IS VERY FAIR TO IMPORT FRUITS FROM US

Our price does not compare for several reasons including that we do not put a large profit margin on our products. And because we also work with a policy that is very profitable with us.

# introduction of Our import fruits

## 3-we could afford any quantities

**We can provide the required quantities in the agreed time our experience in the field of export and because we have a huge supplier base all over Egypt Which can supply any quantities we require .**

**we also work with many filling stations which have a good reputation and most importantly For us and then with many different capacities any yes also with many freezing lines which have good reputation as well and we prefer to work with IQF Freezing**

## 4-What We will Provide ?

**After agreeing with us on our terms and conditions and start work you will find our prices are not comparable due to our experience in the Egyptian market and because we have many suppliers in all brands and known for good reputation You will find our position and credibility in dealing and that we want you .Also you will find full commitment in dealing we don't want together only once, but we want to work together for many years.**
