## 4. TEACHING EXPERIENCE

---

### Molde University College

Fall 2012 - Summer 2017

Professor (Tenured)

Teaching courses on epidemiology and violence, sex offender, and general risk assessment and management to graduate students in the health sciences from across Norway. Promoted to tenured Full Professor in 2014. Ranked youngest Full Professor in the country of Norway:  
<http://tinyurl.com/qj8sq69>

### Walter Reed National Military Medical Center

Spring 2016 - Winter 2017

Adjunct Professor

Instructed military professionals on evidence-based approaches to the assessment and management of violence risk, domestic violence risk, sexual recidivism risk, general recidivism risk/needs, suicide and self-harm risk, and psychopathy. Additional topics of instruction in lectures included epidemiology, behavioral statistics, malingering, competency to stand trial, mental state, false confession, investigative interviewing, criminal profiling, and community corrections best practices. Highly positive reviews of lectures resulted in transition from an invited speaker to a faculty member.

### Maastricht University

Summer 2014

Master Class Lecturer

Instructed the Master Class for the Maastricht University Forensic Psychology program, ranked #1 in mainland Europe. The goal of the Master Class to provide students with access to the expertise of an international scholar in a certain specialised field of forensic psychology. The specific scholar changes on an annual basis. The choice of the scholar will be partly determined by the degree to which the individual embodies the scientist-practitioner model in the field. By working intensively with a renowned expert in the forensic field, students are exposed to state-of-the-art knowledge, and will work intensively in a seminar type format. This teaches students the relevance of the scientist-practitioner model in relation to a specific area of forensic-psychological expertise.

### University of Oxford

Fall 2010

Graduate Lecturer

Instructed small groups of undergraduates from the Department of Experimental Psychology at the University of Oxford in the proper reading, analysis, and critique of independent research concerning social, developmental, and abnormal psychology. Independently developed reading lists, set homework assignments, graded assignments, and provided individual feedback. Organized and conducted weekly tutorial sessions. All reading lists were in accordance with departmental regulations.

---

### St Clare's Liberal Arts College

Fall 2010

Lecturer

Instructed and mentored 3rd year education undergraduates in the psychological foundations of education. Designed course materials, set up opportunities for observation at local schools, set homework assignments, developed reading lists, and provided individual feedback.

### Oxbridge Academic Programs

July 2009/10 - August 2009/10

Head Lecturer

Designed and subsequently taught a month-long course on social psychology through the Oxford Tradition, a branch of the Oxbridge Academic Programs for high school students from around the world. Course topics included social dynamics, serial killer typology, and approaches to psychological therapy.

### Washington International Studies Council

Spring 2010

Lecturer

Instructed a small group of psychology undergraduates in the proper reading, analysis, and critique of independent research concerning abnormal psychology. Independently developed syllabus, reading lists, set homework assignments, graded assignments, and provided individual feedback

### Tufts University

Spring 2008

Lecturer

Designed and subsequently taught a full-credit, graded course on the systematic study of psychopathy through the Tufts University Experimental College. Course consisted of 26 lectures on topics including risk and resilience, childhood behavioral disorders, neurocognitive theories of psychopathy, parent management training, and serial killer typology.

## 5. CLINICAL EXPERIENCE

### Justizvollzugsanstalt Pöschwies

2013

#### Visiting Clinician

Practicum at the prison Pöschwies (JVA Pöschwies), with 426 beds for delinquent men the largest mental hospital in Switzerland. Clinical responsibilities included group therapy sessions, supervised mental health assessments, participating in multidisciplinary team meetings, and pastoral care.

### Yale University

2007

#### Clinical Associate

Worked at the Yale Child Study Center with a multi-disciplinary team led by Dr. Elena Grigorenko. Clinical responsibilities included: administering psychological assessments to juvenile detainees in the Connecticut juvenile justice system, sitting in on group therapy, writing IRB amendments for clinical studies, analyzing epidemiological data, writing clinical case reports, co-authoring grant proposals, and assisting with behavioral genetics research. Supervision was provided by Dr. Elena Grigorenko, Dr. John Chapman, Dr. Elisa Mambrino, & Dr. Lesley Hart.

### McLean Hospital

2007 - 2008

#### Practicum Student

Employed as a behavioral coach at the renowned McLean/Massachusetts General Hospital Obsessive Compulsive Disorders Institute run by Dr. Jeff Szymanski. Clinical responsibilities included: prompting patients with severe and refractory OCD through Exposure and Response Prevention therapy, observing clinical rounds, and attending group therapy sessions. Supervision was provided by Dr. Jeff Szymanski.

## 15. PRE-DOCTORAL RESEARCH EXPERIENCE

### Co-Principal Investigator

April 2006 – November 2008

Tufts university

In-depth archival research into approaches to education in the classroom setting; expertise gained in the understanding and application of interpersonal systems theory for classroom systems. Research led to the ultimate publication of a pedagogical, core textbook to be used by collegiate students and professionals. Supervision was provided by Dr. George Scarlett.

### Research Assistant

June 2006 – May 2008

Tufts university

Worked in Dr. Robert Sternberg's Psychology of Abilities, Competencies, and Expertise Center (PACE). Served as a principal investigator on an international protocol regarding successful transitions from nascent abilities into expertise in the domain of musical intelligence. Wrote the transcript for publication in the United States, learned to code data from multiple sources of media, and helped to validate visual-spatial tasks for the Aurora Battery (an intelligence test based on Sternberg's Triarchic Theory of Intelligence). Supervision was provided by Drs. Robert Sternberg and Linda Jarvin.

### Research Assistant

September 2006 – May 2008

Tufts university

Worked in Dr. Nalini Ambady's Interpersonal Perception and Communication (IPC) Lab. Obtained expert skills in face-morphing technologies as well as proficiencies in eye-tracking, SuperLab, MediaLab, Direct RT, Adobe Premiere, SPSS, and Adobe Photoshop software. Supervision was provided by Drs. Nalini Ambady and Annette Schmid.
