

Photo Release

I _____ accept/decline(circle one) permission for Creative Spirit

Learning Center to use photos of my child _____ for

documentation and play advocacy on social media and/or marketing materials.

I am aware that my child's learning will be documented. This documentation will be shared in a community forum, that only Creative Spirit families and teachers have access to, as well as in our classroom. Our school is used as an observation site for many of the local colleges and other play-based educators. We believe in furthering everyone's education and that by allowing the students into our program we are helping to do so. These students are never out of our site when in the building observing your children. By enrolling at creative spirit, you are giving consent to photographs being used in this manner.
