- **Girth** - Girth is the most important measurement when determining size! To measure girth, place a tape measure at the top of the shoulder (typically where a standard leotard strap sits), then over the apex (fullest part of the chest), down through the crotch and back up to the same shoulder. Measuring tape should follow close to the body shape.
- **Bust/Chest** - Measure over the apex (fullest part of the chest) with your arms relaxed at your sides. Tape must be horizontal around the body.
- **Waist** - Find your natural waist breakpoint by bending to the side (typically 1" to 1 1/2" above the belly button). Stand straight and measure around your natural waist breakpoint. Make sure breathing is relaxed during this measurement. Tape must be horizontal around the body.
- **Hips** - Measure around the fullest part of the hips and buttocks while standing with your feet together. Tape must be horizontal around the body.

All Practices are *MANDATORY*! Practice times, along with the choreographers for each group will be confirmed via email by November 2, 2026. Group practices will begin approximately four weeks prior to the show.
