

PCQ CHARITY QUILT for KIDS

Skill level: Easy

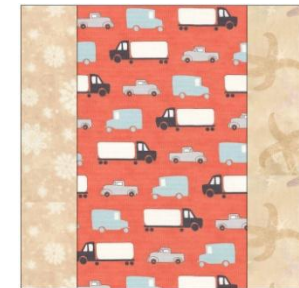

Child large, 45 x 60",
6 x 8 block layout, 48 blocks

Child small, 37.5 x 45",
5 x 6 block layout, 30 blocks

This design can be as scrappy as possible or can be made with as few as 2 feature prints plus a solid. If using two feature prints, for the large size, 3/4 yard of each and 1-1/4 yards of contrasting fabric are needed. Make 24 blocks of each print.

Block, 7.5" finished
(8" unfinished)

For each block:

- Cut two strips of neutral or contrasting fabric 2" wide by 8" long. A 2" WOF strip should yield 5 pieces.
- Cut kid-friendly print 5" by 8". A 5" WOF strip should yield 5 pieces.
- Sew a 2" strip to each long side of the 5" x 8" print piece; press toward the print fabric.

Make the number of blocks indicated for the quilt size desired.

Arrange blocks alternating orientation vertically and horizontally. Sew rows and columns together to complete the top.

After quilting, attach PCQuilters label to the lower right corner of the back and bind the quilt.
