#### **Advanced Beginner**

Weavers are becoming proficient in basic weaving techniques including over/under weaving, start/stop weaving, twining, and rim lashing. They are learning to control shape. If you are taking a class in a material you have never used, you are a beginner in that class.

#### **Intermediate**

Weavers are gaining proficiency in weaving techniques. They have no trouble setting up bases, twining, over/under weaves and rims using the materials offered for a class.

Weavers are proficient or have mastered weaving techniques. They are ready to take on more challenging projects. Teachers depend on students to have achieved this skill level to attend their class. Basic skills are not reviewed due to time constraints.
