1.About Us

1.1. INDIA's Largest Mining Rig Frames Maker

XtremeMiner was established at the end of 2020 in NOIDA U.P, all the products are design and developed in INDIA with the help of World PC Gaming Territories & Gaming Species, XtremeMiner having lots of experience in building Computer frames and all types of frames related to Servers and Mining Farms, Our products are available online and offline, through SHREE PERIPHERALS as our distribution partner for all over India.

XtremeMiner having own Laser Machines, Bending Machines, Powder Coating Ovens, We are the only manufacturer in INDIA who giving Mining Rig Frames with forced convection.

1.2. Long Life Stackable frames with Cooling

Our mining Rigs are specially designed considering easy mounting and unmounting of graphics cards, we are supporting all ATX design rules,

Our frames support all ATX SMPS, Motherboard, HDD/SSD.

Our frames support all PCI Risers like, 007S,008S,009S,009S Pro, X16 H, X16 V Mount Riser.

We manufacture our frames in Mild Steel in 1.5mm Thickness, with textured Black Finish. This thickness gives power to frames to hold multiple layers of graphic cards stackability.

We use Industrial Grade High end cooling fan of FOURDOT COOLINGS Monster series for cooling our mining frames, User can also use their own fans as we give standard fitting for 92mm & 120mm Fans.

Monster series High end range runs up to 4000 RPM, within control of the system, it automatically reduces speed when not required.

All the fan can attached with dust filter if required by users.

Metal grills are in default attachment for safety.
