## FIRST TIME SETUP "START HERE" SHEET

**Found @ instruction**  
Steps 6-5 & 6-6  
For Upright Anchor  
Step 7-7  
For Horizontal Anchor

- Lift the Gator Jawn and the pole upward - it will self-center. **ALL Anchor lines should be tight**, re-set any loose rope with Stake into the ground in better position)
- While pulling upward on the Gator Jawn, loosen the wing nuts, and push the pole downward as far as it will go into the ground while pulling upward on the Gator Jawn making all the Anchor lines tight!  
Secure wing nuts medium-tight (~ 2-3 revolutions)  
**DO NOT OVERTIGHTEN**

## Step 7 – Anchor SIDEWAYS

- Loosen the wing nuts on your Jawn, slide the Gator Jawn downward towards the bottom of the pole, away from the ground stakes until the anchor lines are tight.  
(See instruction sheet for complete setup and variations for wind direction)
