

Update from Burnet County ESD9 Fire Marshal Sam Stacks...

"As of October 1, 2019, ESD 9 adopted the International Fire Code, 2015 version, Outdoor Burning Guidelines, construction permits and fees, and operational permits and fees. All of these can be found at [www.bcesd9.org](http://www.bcesd9.org). I feel one of the most important things that you all should know is that you can now go to the above mentioned website, read the Outdoor Burning Guidelines, and then fill out and submit your intention to burn online. The permit must be completed each day you intend to burn. By completing and registering your burn online through the ESD 9 website, you will no longer have to call Burnet County Sheriff's Office to register your burn. Please ensure that you read the Outdoor Burning Guidelines.
