

Raspberry Shake

To see real time monitoring:

- 1) [Raspberry Shake Seismic Monitor for Double Horn](#)
- 2) Move cursor to “Community”
- 3) Click on “Stations View”

Move your cursor in on the Austin area. The City of Double Horn’s seismometer is #8897, so look for a burgundy colored triangle just west of Austin. By placing the cursor on this triangle. showing the last 10 minutes of seismic monitoring. The monitor records ground motion, acceleration, velocity and displacement for vibrations. It measures in micrometers per second (>150) in 3 different directions.
