To Community Leaders:

Burnet County has secured a temporary burn permit from TCEQ for organic debris created from last week's winter storm event. The location is the Marble Falls Rodeo grounds on US 281 just south of MF. We will be accepting trimmings and shrubbery from 7 am to 3:30 pm each week day beginning next Monday, March 1st. This will continue until March 19th. If you have residents that are unable to make drop offs during the week please have them contact me directly and we will attempt to accommodate them.

Please remember this is organic debris only. No lumber, construction materials, or household trash. And no commercial landscape companies. Only natural vegetation is permitted.

If you have any questions please let me know and please disseminate to your citizens.

Joe Don Dockery
Burnet County Commissioner
Precinct 4
