DECLARATION OF GEOFF WINKLER

2

1

I, Geoff Winkler, declare as follows:

3 1. I am the Court-appointed permanent receiver in the above-entitled action for Defendant Essex Capital Corporation ("Essex") and its subsidiaries and 4 5 affiliates (collectively, with Essex, the "Receivership Entities"). I make this Declaration in support of my concurrently filed Motion for Order: (1) Approving 6 Proposed Distribution Plan; (2) Approving Recommended Treatment of Claims; and 7 8 (3) Authorizing Distributions on Allowed Claims (the "Motion"). I have personal knowledge of the facts stated herein and, if called to testify, could and would testify 9 10 competently thereto.

11 2. As reflected in my Motion, on April 20, 2020, my accounting of the Receivership Entities' business and financial activities was nearing completion, I 12 entered into a stipulation with the Plaintiff Securities and Exchange Commission to 13 establish the claims procedures by which claims against the Receivership Entities 14 15 could be submitted to my office, and to set an associated bar date by which all such claims were due. This Court entered the stipulation and approved my claims 16 processing proposals on July 31, 2020, as reflected in the Court's Order Granting 17 Stipulation for Order: (1) Establishing Claims Procedures; and (2) Setting Claims 18 19 Bar Date (the "Procedures Order") [ECF No. 179]. The Procedures Order provided, 20 in pertinent part, that, after completing a Money-In/Money-Out ("MIMO"), or 21 netting analysis, my office was to contact each creditor whom we identified as 22 having suffered a net loss, identify our calculation of that loss, and permit the creditors to either (a) accept the calculation, which would then become the creditor's 23 24 claim amount; or (b) dispute the calculation, and timely provide documents in 25 support of the disputed amount, which would then be reviewed prior to a final 26 calculation being made. Prospective claimants who did not respond to my 27 communications by the Court-established November 30, 2020 bar date would be 28 deemed to have accepted my calculation of their claims.

- 3. Thereafter, my office promptly and timely submitted the requisite claim
 calculations and claim forms to the Receivership Entities' creditors.
- 3 4. A total of seventy-two (72) investor and non-investor claims were
 4 timely submitted to my office, in the aggregate amount of \$49,728,517.83.
- 5 5. Of these seventy-two (72) claims, and as reflected in my Motion, fifty6 seven (57) are recommended for allowance, in whole or in part. Of these claimants,
 7 a total of fifty-four (54) ultimately agreed to and accepted my valuation of their
 8 respective claims, reflecting an acceptance rate of over 94%. Only three (3)
 9 claimants challenged my valuation of their respective claims.
- 10 6. My office completed processing of all claims-related materials on or
 11 around July 31, 2021, and thereafter commenced developing the Distribution Plan
 12 nor proposed to approval, as reflected in the Motion.
- 7. Based on my forensic accounting, I have concluded that, in the
 aggregate, the investor creditors of the receivership estate invested in or contributed
 a total of \$100,977,530.13 to the Receivership Entities. In the pre-receivership
 period, a total of \$61,530,774.82 was returned to these investors and creditors,
 reflecting a return of approximately 60.9% of principal investments/contributions,
 meaning that collective net losses totaled \$39,336,755.31.
- 19 8. The Receivership Entities did not treat all investors equally, however. 20 Individual claimants invested or contributed amounts ranging from \$50,000 to over 21 \$23 million, with an average investment or contribution of \$1.7 million. Investors 22 experienced returns ranging from 0% (meaning that no portion of their investments were returned during the pre-receivership period) to over 95%. Because the Ponzi 23 scheme perpetrated though the entities depended, in part on deferring payments to 24 25 investors as they came due – often in the form of "rolling over" the investment into a new one – investors experienced significantly differing outcomes as a result of the 26 27 timing of their investments, the amounts invested, and the amounts due. As a result, 28 investor outcomes were vastly disparate, both with respect to individual returns in

proportion to individual investments or contributions, and in strict dollar terms – a
 difference compounded by the fact that a handful of investors constituted a
 significant portion of total investments in the Receivership Entities. By way of
 simple example, the top half of claimants (in dollar terms) saw an average of
 approximately 67% of their principal returned, while the bottom half received only
 approximately 22%.

As a consequence of the above, I have determined, in my reasonable 7 9. 8 business judgment, that a strict *pro rata* distribution would be inequitable here, 9 given that it would favor high-dollar claimants who already fared relatively better as compared to their lower-dollar contemporaries. In order to ensure that some 10 minimal level of returns can be guaranteed across all investor claimants, and as 11 12 reflected in the Motion, I therefore recommend applying a modified Rising Tide distribution methodology to all allowed claims. The Rising Tide method aims to 13 ensure equitable distributions across claimants with vastly different pre-receivership 14 recovery rates. In my reasonable business judgment, I believe that an application of 15 the Rising Tide method will permit me to bring all investor claimants with allowed 16 17 claims to a roughly equivalent rate of loss, thereby ensuring that no investor claimant is, proportionally, significantly better or worse off than any other. 18

19 10. Here, I propose employing a hybrid Rising Tide approach, whereby the 20 first 50% of funds to be distributed are distributed among the least "whole" investor 21 group, in order to restore them to a more equitable loss "floor", the second 50% of 22 available funds are subsequently distributed on a strict *pro rata* basis, after accounting for the first round of distributions. I believe the distribution plan (the 23 24 "Distribution Plan") proposed in my Motion, which adopts this Rising Tide hybrid 25 approach, will most equitably compensate those investors who, proportionally, 26 suffered the largest losses as a result of their investments in, or contributions to, the 27 Receivership Entities, while ensuring that the largest claimants, as determined by 28 MIMO, are affirmatively able to participate in, and receive, distributions of

LAW OFFICES Allen Matkins Leck Gamble Mallory & Natsis LLP available funds. My analysis suggests that the Distribution Plan will yield a return
 approximately 6% better on average, compared to the standard net-investment
 (MIMO) approach to distributions.

11. A true and correct, anonymized version of recommended treatment of
all timely claims is attached hereto as <u>Exhibit 1</u>. In order to preserve claimant
anonymity in accordance with the Court's prior orders, claims are identified by
numbers only. My office will timely advise all claimants of their claim numbers in
order to permit any claimant who wishes to object to the recommended treatment of
his, her, or its claim an opportunity to do so.

I declare under penalty of perjury that the foregoing is true and correct.
Executed on December 15, 2021, at Salem, Oregon.

July,

Geoff Winkler
