

# COMPREHENSIVE FIRE DEBRIS REMOVAL & CLEANUP SERVICES

## Private Debris Removal:

- Comprehensive property assessments with estimates tailored to your needs.
- Debris removal takes 1–7 days, depending on the size and complexity of the job.
- Ready to start as soon as authorities allow property access.

## Minimizing Costs:

- We aim to reduce rebuilding expenses by preserving flatwork, foundations, pools, utilities, and other key property features whenever possible.
- Only the necessary amount of soil is removed to pass clean soil tests, avoiding costly fill dirt imports.

## Complete Cleanup Process:

- Removal of all debris and ash, demolition of structures, carports, hardscapes, and damaged landscaping.
- Identification, capping, and marking of utilities with Christy boxes and fluorescent markers.
- Final grading and erosion control using straw waddles, silt fences, and jute cloth coverings to meet or exceed government and building department standards.

## Insurance Assistance:

- We'll work with your insurance company to maximize your policy's coverage.
- We'll take care of filing all necessary paperwork with your insurance company to ensure debris removal and cleanup are covered—***we handle it all for you.***
- Some companies cap costs at your insurance policy limit; we'll help guide you through your options.

## Take the Next Step

- Please fill out our intake form, available here today.
- You can return it to us on-site or email it to [info@sbfirerecovery.com](mailto:info@sbfirerecovery.com).
- Our team will review your information and guide you through the next steps with care and efficiency.
