## EZ ROLLER-SPINNER SOLUTION FOR MOBILITY INCLUDES

~NO SPARE WHEEL NO PROBLEM  
EZROLLER SPINNER

### EZ ROLLER-SPINNER W/WEDGE NUTS & SPINNER RING

When installed on the Roller wheel, it enables the transformation to a SPINNER WHEEL in 30 seconds.

### EZ HORSESHOE CHOCKS

The customized chocks wrap around the wheel to stop any movement of the vehicle while the wheel is in the spinner mode.

### EZ RAMP

Helpful resource when a shop requires additional height when repairing a low profile vehicle.

# /// EZ ROLLER-SPINNER™ ///

CONVERTS FROM A ROLLER WHEEL TO A SPINNER WHEEL IN 30 SECONDS

**BOLTS IN**  
It's a Roller Wheel

## EZ WEDGE NUTS

Enables 30 second bolt removal

## SPINNER RING

Holds the spinner wheel in place when mounted on the vehicle hub

**BOLTS OUT**  
It's a Spinner Wheel

The **ROLLER** transforms into a Spinner wheel by removing the bolts holding the center.

## AVAILABLE IN 2 SIZES

### 40050P FOR 4/5 LUG

BOLT PATTERN: 4x98 to 5x130  
CENTER BORE : 74.1 mm

### 40060P FOR 5/6 LUG

BOLT PATTERN: 5x120 to 6x139.7

## WHEN IN THE ROLLER MODE

- Mobile jack stand
- Temporary universal shop wheel (not for road use)
- Drivable @ 5 mph in shop or parking lot

## WHEN IN THE SPINNER MODE

- Provides the ability to push or pull vehicles with no power or stuck in park onto a tow truck or into a service bay
- Replaces unstable dollies, when dollies are used outside on uneven pavement inclines, gravel or dirt
- While working on EVs reduces back charging risk
