

STUDIO K ARCHITECTS

Architecture+Interiors

About Us

Studio K Architects is a contemporary architecture design firm based in Bengaluru. Our current projects include Farmhouses, Residences, Hotels, Corporate and Commercial complexes.

We are a team of creative and motivated design professionals and being a studio is very important for us since it allows us to indulge ourselves in the design processes and keeping the firm purely design oriented. The design process is informed and guided by a synergetic amalgamation of function, space, structure and aesthetics. The aesthetics in this case refers to designed, structured aesthetics and non-ornamental. Studio K Architects was founded in 2009 by Santosh Kumar, a master of architecture (2006) graduate from TCAUP, Univ. of Michigan, USA.

Our Philosophy

At Studio K Architects, we aim to design smart buildings that respond to climate which in turn translates into energy saving and improved quality of living for the client.

Our Mission

We believe that there is no alternative to good design. Our mission is to make good design accessible to all.

Our Founder

Santosh Kumar Kugunavar

Santosh Kumar is a graduate from the prestigious University of Michigan, Ann Arbor 2006. Santosh has worked with award winning architecture firms such as Bates Masi Architects in Long Island and Skidmore Owings & Merrill LLP, New York City with projects including large scale airports. In 2009 he returned to Bengaluru and founded Studio K Architects as a contemporary architecture and design firm focused on providing clients with innovative and economical design solutions.

Overall Santosh brings in 20 years of regional and international experience in designing and handling projects of various scales ranging from single family residential to institutional, hotels and layout planning.
