

# DEEP GHYLL FARM

---

100% GRASS FED, OUTDOOR REARED BEEF

AVAILABLE END OF JANUARY 2024

**PRE-ORDER NOW**

We will soon have some of our lovely pedigree Belted Galloway beef for sale. We farm in a very mindful manner with the welfare of nature, from the smallest life in the soil up to our beautiful cattle being at the forefront of our minds and practices. We do not use any chemical on the land. Our cattle have not been vaccinated and are 100% medication free. The only thing they eat is the diverse grass, flowers and legumes grown on our land. Farming with nature at the heart of our actions, we work in harmony and balance with our environment, providing nutrient dense forage for our grazing animals, which will in turn produce nutrient dense food for us. **We are nature farming.**
