

WAKE

# HARVEST

"Sowing seeds of hope to reap a HARVEST of success."

With the youth suicide rate rising to unacceptable rates, we are on a mission to do something about it.

Our Wake Harvest Youth Mentorship Program is designed to give our youth a hope for the future. One Saturday of every month we visit a different local business. This let's business owners explain their career path as well as provide guidance and motivation.

Showing our children all of the different options of who they can become, introduces them to the embodiment of hard work and dedication. We want our students to do better in school and have higher self-esteem.

Sowing seeds of positive self-esteem and healthy confidence into our next generation is critical to reap a HARVEST of success.

Our Program is one of a kind. Wake Harvest students gain exclusive VIP access to entrepreneurs and local businesses for FREE! We want children from all walks of life to have the opportunity to participate in our incredible program.

If you would like to see how you can help us in our mission, please contact
