Or, join via Zoom:

Meeting ID: 886 4171 9174

Passcode: FIBER

Presentation Title:

***When Feathers speak to Science:
Old Medicine (Pomo Baskets) and New Medicine
(Stanford Labs) meet for Microplastics Research***

In this webinar, Bear Doctor Fred Briones (Big Valley Pomo), CEO of the Native American Fiber Program (NAFP), invites the community into a shared story of knowledge and healing. He will speak about the spiritual power of Pomo feathered baskets and how they are used as sacred tools to communicate with the Spirits and open pathways to healing. Fred's hope is that those who listen will leave with an open heart, a changed way of thinking, and a deeper awareness of how microplastics affect our environment and our health.
