Presentation Title:

Carrying on my Family's Traditions

Hello my name is Evelyn Malone I live in Ivanhoe California. I'm 73 years old. I'm Wukchumi Yachi and Yolumne. I've been weaving since the age of 25. My goal this year is to make my first full size coil basket. I love traveling beading and making pine needle baskets and medallions. I taught my granddaughter how to weave she continues to make baby rattles . When my great granddaughter was 3 years old I taught her how to make my gambling tray she loved it. She is 14 now and ready to weave one on her own I'm so very proud of her. So proud to have my girls to keep this going.
