Course Overview

Our hands-on training program will help you gain the skill, knowledge and confidence you need to be successful in today's challenging times. Our lecture series will give you a comprehensive overview of Dental Implantology, Soft Tissue Management, Guided Bone Regeneration, Platelet Rich Fibrin (PRF) and Phlebotomy. The implant surgeon will have a more thorough understanding of advanced bone grafting procedures which will ultimately improve implant success, longevity and esthetics for their patients.

Course Objectives

- ✔ Treatment Planning using Cone Beam CT Technology
- ✔ Step-by-Step Treatment Planning
- ✔ Socket Grafting Procedures
- ✔ Advanced Suturing Techniques
- ✔ Platelet Rich Fibrin to use in Soft Tissue Procedures
- ✔ Immediate Implant Placements
- ✔ Sinus Augmentation (lateral & Crestal Approach)
- ✔ Onlay Grafting
- ✔ Connective Tissue Variation
- ✔ Soft and Hard Tissue Management

Speaker

DR. JUAN GONZALEZ, DMD, OMS

Dr. Gonzalez is a Board Certified Oral and Maxillofacial Surgeon. Over the last two decades he's practiced full scope oral and maxillofacial surgery to include complex dentoalveolar surgery, third molar removal, orthognathic surgery, facial trauma, dental implants, facial cosmetic surgery and temporomandibular joint surgery. Dr. Gonzalez is also highly trained in all aspects of anesthesia and has performed over 14,000 moderate to deep sedations. For the last 4 years he's concentrated solely on full arch surgery (All on X) procedure, specially the severe bone loss cases requiring special implants like zygomatic and pterygoid implants. He is also an editorial member of the Journal of Implants and Advanced Clinical Dentistry, one of the largest and most prestigious dental journals.

Dr. Juan Gonzalez was born in Spain and raised in Puerto Rico. After finishing dental school he completed a one year hospital based General Practice Residency and was commissioned as an officer in the United States Army. While in the Army, Dr. Gonzalez completed his four year Oral and Maxillofacial training at Brooke Army Medical Center. He attained the rank of Lieutenant Colonel and after 12 years of active duty transferred to the Air Force Reserves where he's been for the last 8 years as the Chief of Professional Services directly supervising 6 physicians. He's also been a highly sought educator helping train dozens of active duty surgery residents. When not taking care of patients, Dr. Gonzalez remains active by traveling with his wife and three daughters, flying, shooting, hunting, wakeboarding, running barefoot half marathons and drinking wine with friends.

Speaker

DR. MOUNIR ISKANDAR, DMD, MSD

Dr. Iskandar is a certified restorative and cosmetic dentistry specialist and a Surgical Prosthodontist. Dr. Iskandar obtained his DDS degree from Cairo University School of Dentistry in 1998, after finishing his oral surgery residency, Dr. Iskandar practiced as an oral surgeon in Egypt from 2000 to 2004 until he moved with his family to the USA. Dr. Iskandar holds a specialty in Surgical Prosthodontics and MSD (Masters of Science in Dentistry) obtained from the Indiana University School of Dentistry in 2008. Dr. Iskandar has been a Diplomate of the International Dental Implants association since 2011.

Dr. Iskandar also enjoys the laboratory part of dentistry and strives to deliver the highest standard of care to his patients by providing state of the art technology in his office and by staying current with the advances in dentistry. He sets his standards high by using the best dental materials, and digital dentistry equipment in the market today. Dr. Iskandar is an active member in several research organizations for development of Hybrid Nano-ceramic materials and has patents in prosthetic components of implant supported restorations. He performs and specializes in dental implants procedures particularly the full arches dental implant supported restorations commonly known as All-on-4, he also gives lectures and hands-on training courses about the procedure to dentists locally and nation-wide. Dr. Iskandar is Certified National Dental Implant Instructor with MIS Implants Technologies, he is also the head professor at the Texas Institute of Oral Implantology.
