

an introduction to
KINETIC
DESIGN + DEVELOPMENT

We help you
navigate the
adventure of
design and
development to
move you **forward**.

That's the Kinetic way.

KINETIC DESIGN + DEVELOPMENT

2215 W Chesterfield Blvd, Ste 01 | Springfield, MO 65807
417-530-4321 | info@kineticdd.com | kineticdd.com

Hi, we're Kinetic.

At Kinetic Design + Development, we're pushing the limits of traditional architectural practice. With a focus on forward motion in technology and design principles, Kinetic is dedicated to bringing energy and innovation to each and every project and client.

The principle '**people are our purpose**' is the foundation of our practice, character, and relationships. Since 2022, we've grown to a team of over 60 architects, creatives, and development services professionals whose singular goal is to support each other and the projects we represent.

With our leadership core's 40+ collective years of professional design experience, Kinetic is dedicated to helping clients navigate the adventure of design and development with ease and energy that moves them **forward**.

Join us to discover what's possible for your next chapter — we'll navigate the journey with you every step of the way.

Our leadership.

Adam Kreher AIA | NCARB | LEED AP
Architect + Partner + CXO

Master of Architecture — 2007
Bachelor of Architecture — 2006
Drury University

21 years industry experience

Adam oversees the daily architectural production of our studio while also championing our employee growth and training programs and client relations.

Abbye Bobbett AIA | NCARB
Architect + Partner + COO

Master of Architecture — 2017
The University of Kansas

Bachelor of Science Hospitality Management — 2014
The University of Missouri-Columbia

10 years industry experience

Abbye is a systems and efficiency pro and oversees the daily people operations of our studio while also championing our teams and their ongoing needs.

Griffin Bobbett
Partner + CDO

10 years industry experience

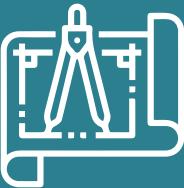

Griffin is a bridge between all of our departments, providing vision and direction for the firm while also championing our development services, business development and realty teams.

What we do.

Our team includes Architectural Design & Interiors, Civil Engineering, Structural Engineering, and Mechanical-Electrical-Plumbing Engineering, as well as Probable Cost Estimating and Development Services. Kinetic will be the project lead and coordinate all disciplines.

This gives you ONE point person for all design and engineering through the completion of your project.

Architecture

PROGRAMMING | MASTER PLANNING | ARCHITECTURAL DESIGN | INTERIOR DESIGN

We offer a complete spectrum of Architectural Design + Planning services, tailored to fit each unique project and client. You won't find any 'cookie cutter' processes or projects here. Kinetic finds our success when we bring the client's vision to life.

Development Services

**FEASIBILITY STUDIES | PERMITTING | SITE INVESTIGATION
CONSTRUCTION ESTIMATING**

Kinetic strives to be an expert in development logistics. From site investigations to permitting and everything in between, we make every effort to create a smooth process for our clients.

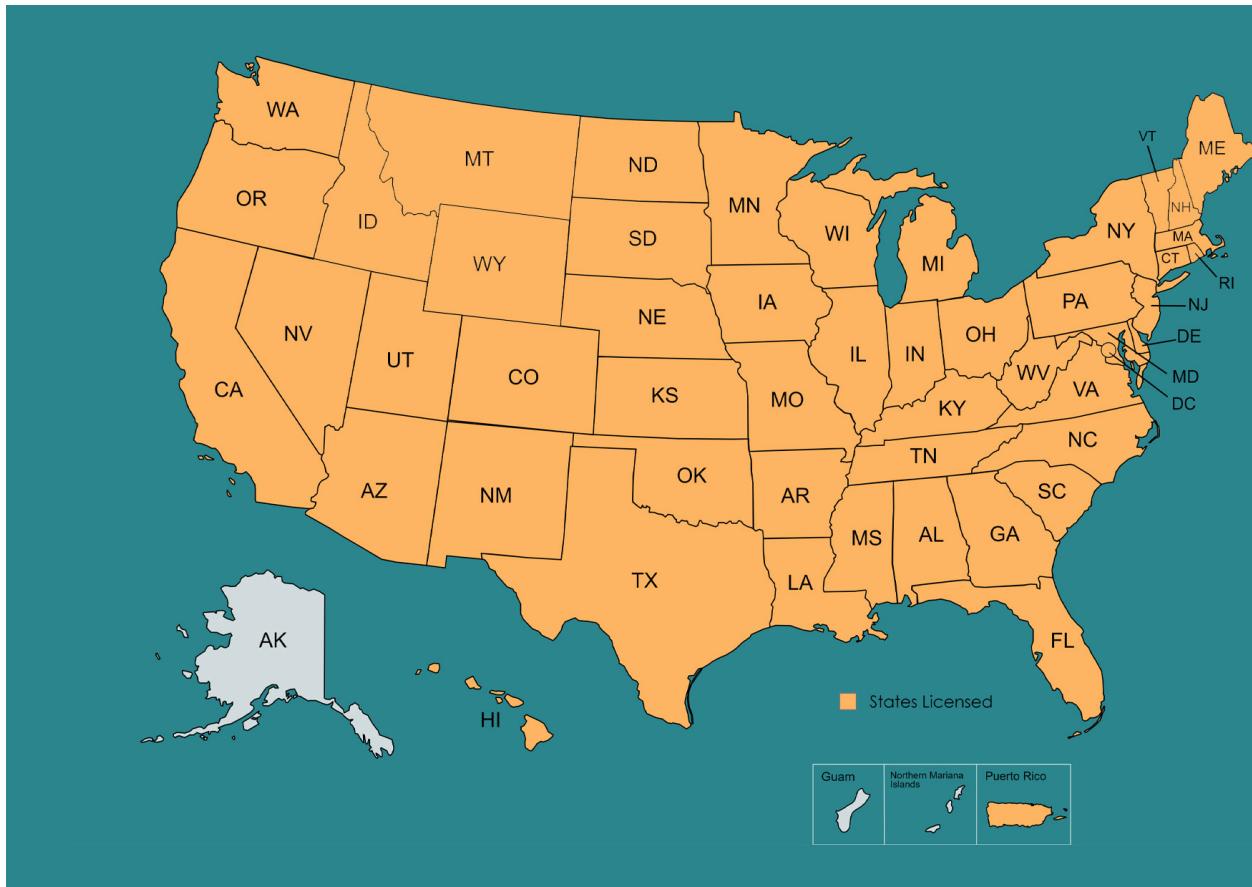

Real Estate

SITE SELECTION | SITE PROCUREMENT

In an effort to help set our clients up for success from the start, we offer full real estate services including site selection, site procurement, lease negotiations and more.

Where we work.

#2022033789

Our Corporate Partnerships.

Our interiors experts.

With over 21 years of experience across major industries, our commercial interiors team partners closely with clients to create spaces that are functional, thoughtfully designed, and built to endure the demands of daily use. Unlike many firms that outsource interior design, our team is fully integrated with our production and architectural staff, ensuring each design is both visually compelling and technically feasible.

Our interior design services can also be engaged as stand-alone offerings, providing additional design capacity for architecture firms, contractors, or clients needing expert support.

Discover design that moves you forward as we bring your project to life.
That's the Kinetic difference.

Our Services.

CONCEPT DESIGN + SPACE PLANNING

Our team collaborates with you from the start to develop concept designs that establish your project's visual and spatial direction. Using inspiration from precedent projects—both real and AI-informed—we craft color palettes and space plans that align with your vision and set the foundation for a cohesive, successful design from day one.

INTERIOR ARCHITECTURE + DESIGN

Our interior architecture and design services combine functionality, aesthetics, and technical precision to create spaces that are both beautiful and efficient. We craft thoughtful spatial layouts for seamless flow and ADA/code compliance, design custom millwork that adds character and cohesion, and coordinate ceiling and lighting designs with MEP teams for comfort and visual impact. The result is a refined, unified environment that reflects your vision and enhances how people connect and work.

INTERIOR FINISH SELECTION + REFRESH

We select interior finish materials such as paint, flooring, wall coverings, millwork and acoustical treatments. These selections are coordinated across restrooms, breakrooms, conference rooms and other areas with attention to durability, lifecycle expectations, and ease of maintenance for end users.

FURNITURE SPECIFICATION + REFRESH

As part of the overall design services we provide, our team guides the furniture specification process to ensure every selection enhances both the functionality and aesthetic of your space. We collaborate closely with furniture vendors to curate pieces that reflect your project's design intent, support user comfort, and align with budget and performance goals. Our team is equipped to scale our services to a project of any size. From furniture packages for entire facilities to lobby furniture refreshes, each selection is thoughtfully coordinated with the overall interior concept to create a cohesive, purposeful environment that feels as good as it looks.

WAYFINDING + ARTWORK DESIGN

Our team designs wayfinding and artwork programs that enrich the user experience and express the identity of each space. From signage systems and environmental graphics to custom art installations, we create visual elements that guide, inform, and inspire. Every detail is thoughtfully coordinated with the project's overall design to ensure clarity, cohesion, and a lasting visual impact that reflects your brand and brings your environment to life.

PEOPLE ARE OUR PURPOSE.

Partner with us to discover what's possible
for your next chapter.
