## CORE COMPETENCIES

- **Heavy Civil Construction Expertise** – Over 20 years of hands-on experience in bridge construction, MSE wall installation, water and sewer infrastructure, and slip-form paving, supported by deep field knowledge as an estimator, superintendent, and equipment operator.
- **Skilled Union-Trained Workforce** – Extensive background in the Operating Engineers Union, with proficiency operating bulldozers, scrapers, cranes, excavators, and other heavy equipment essential to complex civil and demolition projects.
- **Demolition & Site Preparation** – Proven capabilities in structural and selective demolition, earthwork, excavation, grading, and site clearing for public and private sector projects.
- **Material Hauling & Logistics** – Company-owned and operated dump trucks providing reliable hauling of aggregates, debris, and excavated materials, ensuring efficient project flow and reduced subcontracting needs.
- **Certified DBE/SBE Contractor** – Certified in Kentucky since 2015, offering agencies and prime contractors a qualified, experienced partner for meeting diversity and small business participation goals.

## PAST PERFORMANCES

Recently completed a three-year hauling contract with **Reigler Asphalt on Route 236** (Donaldson Road), utilizing two company-owned dump trucks. Additional experience includes structure removal for the Kentucky Right-of-Way Division, most notably the demolition of the former Rush Heating and Cooling building to support the Brent Spence Bridge expansion..

## DIFFERENTIATORS

We prioritize competence and safety over low-cost shortcuts. While the lowest bid may not always deliver the expertise a project demands, our focus is on completing every job safely, on schedule, and within budget. Our disciplined approach, experienced workforce, and commitment to risk-free operations ensure reliable performance and consistent project success.
