

Capability Statement

AXIS is a group of independent contractors, specially trained and experienced in Medical Case Management, Utilization/Peer Review, Medical Bill Auditing and Nurse Consulting. Through this alliance of professionals, AXIS is equipped to meet the Medical Management needs of Employers and/or their Administrators in a quality controlled and cost-effective manner.

Core Competencies

Medical Case Management

- AXIS provides services for both telephonic & onsite Case Management.

Utilization/Peer Review

- AXIS performs all types of Utilization and Peer Review, including Precertification, Concurrent Review, Retrospective Review, Appeals for Reconsideration, & Specialty Match Final Determinations.

Medical Bill Auditing

- AXIS executes in-depth Medical Bill Audits which compares the billed charges to the actual medical record to ensure that items billed were ordered and the services were performed. Surgical bills are evaluated to verify that the procedures coded are accurate, and those procedures performed were anticipated during the Precertification process.

Nurse Consulting

- AXIS maintains access to Nurse Consultants through our panel of Independent Contractors. Types of services available include Legal Nurse Consulting, Quality Management Consulting, Clinical Nurse Consulting, Rehabilitation Nurse Consulting, and Causation Opinions.

WOMEN OWNED™

Differentiators

- Our nurses have autonomy in their field of practice, and are responsible and motivated to attain and maintain credentials and certification in their areas of expertise.
- Credentialing is performed by an independent source to assure that each nurse remains current in licensure and certification.
- We utilize input from our panel of physicians, and continuous quality improvement measures are ongoing in an effort to guarantee that fair, unbiased opinions and determinations are rendered in a timely manner.
