

Capability Statement

DHDC Engineering Consulting Services, Inc. is a DBE, MBE, EDGE, SBE, LEDE engineering consulting firm headquartered in Columbus with offices in Middletown & Medina (TP), Ohio. We are prequalified by Ohio Department of Transportation (ODOT) and Columbus Regional Authority (CRAA) under concrete, asphalt, soil & aggregate testing and inspections as well as under Geotechnical (engineering, drilling, inspection and laboratory). We are also certified for "Special Inspections" under the Ohio Building Code (OBC)-Chapter 17 from the Board of Building Standards. Our laboratory is certified by the American Materials Reference Laboratory (AMRL) and Cement & Concrete Reference Laboratory (CCRL), and meets all American Materials Reference Laboratory (AMRL) and American Concrete Institute (ACI) specifications. We also offer Subsurface Utilities Engineering Services. (SUE) for Level A & B.

Core Competencies

Geotechnical Engineering

- Building Construction
- Bridge Construction
- Roadway Construction
- Dewatering Designs
- Soil Stabilization
- Borrow Suitability
- Failure Investigation Analysis
- Foundation Recommendations
- Retaining Structures
- Sewers, Water Mains, Tunnels
- Airport

Subsurface Utilities Engineering (SUE)

- Electromagnetic Devices
- Ground Penetrating Radar (GPR)
- Two Dimensional Horizontal Mapping
- Hydro Vacuum and Air Knife (pneumatic)

Construction Testing & Special Inspections

- Soil/Aggregate-NETTCP
- Concrete/Masonry
- Asphalt
- Fireproofing
- Steel—AWS/NDE
