E-Squared is a certified DBE/MBE firm in 26 states committed to excellence and diversity in today's transportation community.

Overview:

E-Squared Engineering is a transportation firm dedicated to providing quality services in the Intelligent Transportation Systems (ITS), Commercial Vehicle Operations, Transit Systems, Traveler Information, Parking, Electronic Payment Systems, and Intermodal Freight arenas. Founded in 1998 by Richard Easley, President of the firm, has over 34 years experience in transportation and engineering. E-Squared Engineering is also committed to providing top quality experienced Staff Support Services to associations and organizations. Our firm's philosophy is based on 'helping people'. We strongly believe that if we are to be successful, we must first concentrate on making our clients successful, one task at a time.

Differentiators:

- We bring our clients a thorough understanding of issues, implications and relationships involving transportation subjects.
- We bring our experience gained from research and projects in 30 states and 18 countries.
- We understand the need for public and private sector relationships to ensure success in all areas of ITS.
- Our extensive network within the ITS industry allows us to include the latest information in our client based solutions.
- We provide tested experience with ITS project management and program coordination that includes local agency projects, statewide initiatives, corridor partnerships and national strategies.
